WE PRESENT our NEW GUIDE for 1887, and cordially solicit your orders. Our stock is the best that can be grown; our prices the lowest consistent with excellent quality; and our methods of business prompt and reliable.

Our Great Specialty is growing and distributing ROSES. WE ARE THE MOST EXTENSIVE GROWERS OF ROSES IN THIS COUNTRY. We have all desirable varieties, both NEW and OLD, in large and small plants, at lowest prices, to suit the wants of all.

Prices Reduced.—Prices of many articles are greatly reduced, but plants are, if possible, better than ever before, and our friends can rely on the same liberal and satisfactory service for which our establishment is noted.

Besides Roses, we offer FINE HARDY FLOWERING SHRUBS, ELEGANT CLEMATIS, SWEET-SCENTED HONEYSUCKLES and CLIMBING VINES, NEW CHRYSANTHEMUMS, CARNATIONS, GLADIOLUS, JAPAN LILIES, and last, but not least, our FINEST STRAINS OF TESTED FLOWER SEEDS. This last is a new feature, but has already proved so successful that we have organized a SPECIAL FLOWER SEED DEPARTMENT, and now make the FINEST FLOWER SEEDS A LEADING SPECIALTY IN OUR BUSINESS. See page 71.

Roses by Mail.—Our MAILING PLANTS are especially grown and prepared for sending by mail, and at the prices given we deliver them safely and in good growing condition at all post-offices in the United States. They are well-matured, vigorous plants, suitable for immediate bloom. We also have larger Roses, at higher prices, to be sent by express, for those who desire them. See page 9.

Our Three Warrants.—We warrant all money sent to reach us safely when sent according to directions. We warrant the plants to reach you in good growing condition, and we warrant you pleased with our prompt and satisfactory dealing.

Our Business Very Large.—We run more than sixty large glass houses Summer and Winter, and mail over TWENTY-FIVE TONS OF GUIDES to friends and customers in all parts of the United States and Canada. Postage amounts to many thousands of dollars, and during the busy season orders and letters are received and dispatched by the thousand every day.

Roses Ready for Shipment at all Times.—Planting is always in season in some part of the country, and orders are received and plants can be forwarded every working day in the year. Every order, large and small, has careful personal attention, and we guarantee satisfaction in all cases.

The NEW GUIDE is published for the use of our customers, to all of whom it is mailed free without request. It is also sent free on request to all intending buyers and other interested persons. Those who send for it with no expectation of buying should enclose stamps.

Questions.—Before writing us for information, please examine the GUIDE carefully, as most of the questions usually asked are answered in it more fully than they can be by writing in the hurry of business but when necessary we will cheerfully give any information in our power.

Personal Friends.—All our customers are considered personal friends, whom it is a pleasure to serve faithfully, and no effort is spared to please them. We always give good value, and our prompt, honest and liberal dealing has made our establishment famous.

A Handsome Reward.—Many persons get a SPLENDID COLLECTION OF ROSES FREE, by getting up clubs among their friends and neighbors (see Rewards for Clubs); but whether this is done or not, we shall be truly obliged by your kind influence in introducing our beautiful Roses to the notice of your friends and neighbors.

Thanks.—We thank our friends for their generous orders, and kind appreciation of our efforts to please, and strive to conduct our business in a way to secure the confidence and regard of all who have intercourse with us.

Faithfully yours,

ROSE GROWERS,
WEST GROVE, CHESTER COUNTY, PA.
is best not to plant out until danger of severe freezing is past, and the ground is in a mellow and friable condition. Many people prefer to get their Roses early, before the rush commences, and grow in pots or boxes in-doors, till the season is sufficiently advanced for setting them out, and if you know how to care for them, and can keep them healthy, this is an excellent plan.

**Southern and Pacific States.**—Our friends in the Southern and Pacific States will choose the most favorable time for planting in their respective sections; we cannot advise as to when this is, as the planting season in these localities is different from ours. We send Roses safely whenever they are desired.

**Fall Planting in Open Ground** is only recommended for those of the Southern and Pacific States where the Fall and Winter months are the most favorable time for all kinds of out-door planting.

**Fall-Planted Roses not Hardy.**—It should be understood that a certain degree of growth and development is necessary to enable even Hardy Roses and plants to bear Northern Winters. If newly planted just before cold weather, they cannot bear the Winter; they must be planted early enough in the season to make considerable growth and get well established before cold weather begins, otherwise they will most likely be Winter-killed, in spite of any protection that can be given.

**Proper Distance for Planting.**—When the Ever-Blooming Roses are planted in beds or masses—and the best effect for the present season is desired, they may be set only 10 or 12 inches apart each way, but if intended to remain over year they should have a little more room.

**Hybrid Perpetual and Moss Roses** require more room than the Ever-Blooming sorts and may be set from 1½ to 2 feet apart each way. For HEDGES, plant 1 foot apart in a single line, and cut the plants back to a regular height every Spring.

**Hardy Climbing Roses** are mostly of strong growth, and are usually planted in single rows, and from 2 to 4 feet apart, according to circumstances.

**In California and the Southern States,** Roses grow much larger than they do in other sections, and therefore must not be planted so closely. In some places they make moderate-sized trees, 10 to 20 feet high, and of course must have room accordingly.

---

**Roses in Pots.**

The **Ever-Blooming, Hybrid Tea and Polyantha Roses** are the best for house-culture in pots. The Hybrid Perpetual, Moss and Climbing Roses are not suitable for house-culture, but should always be planted in open ground. Pot Roses can be kept nicely with other growing plants, and with proper attention to their wants will bloom freely. Persons who order Roses for house-culture can select any varieties they choose, or, when desired, we will select for them, and send those most likely to give satisfaction. All will be labeled the same as if selected by the purchaser.

**Size of Pots.**—Do not use too large pots; our ordinary size Roses will require 3 to 4 inch pots; Two-year Roses, 5 to 6 inch pots, according to size of plants. The smaller the pot, provided of course it is large enough to contain the plant, the quicker and stronger the plant will start. A Rose will not bloom much till the pot is well filled with roots.

**Potting Earth.**—Earth for potting should be mellow and rich, not such as will bake or become hard, nor yet too light; that made from rotted sods is best. If manure is used, it should be old and thoroughly composted; fresh manure is injurious.

**When to Water.**—As soon as potted, water the plants thoroughly, and if the sun is strong, shade lightly for a few days, then give full light and air. Though the plants should not be allowed to wither for want of water, the earth in the pots should get moderately dry before watering again. Too much water is worse than not enough, and very little water is needed until the plants begin to grow.

**Why the Leaves may Fall.**—When Roses drop their leaves after being potted, it is generally owing to the change of temperature and other conditions which the plant has experienced in removal; but it may result from too large a pot, or too much water. The best remedy is perfect rest. Keep the plant quite dry till signs of new growth appear, then water very sparingly; the earth in the pots should not remain soaked, but should dry out quickly if the plants are in healthy growing condition.

**General Treatment.**—The conditions most favorable for growing Roses in pots are good, rich soil, plenty of sunshine—the early morning sun is best when it can be had—reasonable and regular heat and moderate moisture. The temperature may range from 40° to 50° at night and from 60° to 80° in day-time. Plants should be washed or sprinkled frequently in blood-warm water; the leaves should be kept clean and bright; dust is injurious. If troubled with earth-woods, water occasionally with weak lime-water or very weak tobacco-water.

**Roses for Winter Bloom.**—We furnish Roses suitably prepared for Winter bloom, in both large and ordinary-size plants, whenever wanted, at the usual prices. These are strong pot-grown plants that have been kept hungry and are anxious to get a chance to grow. If potted in good, rich soil, and put at once in a warm room, they will, with proper treatment, commence to grow and bloom immediately.

---

**Insect Enemies of the Rose.**

Roses which are strong and vigorous are not likely to be attacked by insects, or, if attacked, are not easily injured. It is highly important, therefore, to keep your plants healthy and in good growing condition, by liberal manuring and thorough cultivation. When Insects appear, apply the proper remedies promptly and vigorously, and in bad attacks stir the ground deeply with hoe and rake every day. A little
perseverance to resist the present attack is all that is needed; next year you may not be troubled with insects at all.

**Aphis or Green Fly.**—The best remedy is tobacco smoke. It can be applied by covering the plant with a box or barrel, and putting under a little burning tobacco. The plant should remain in the smoke for several hours and then be thoroughly washed off with blood-warm water. If more convenient to apply, a strong tea of tobacco will answer very well. Wash or sprinkle the whole plant or dip it in the tea as often as may be necessary. For Roses in pots, a hot-water bath will answer the same purpose. The water should be as hot as the hand can bear, say about 130 degrees, and the whole top of the plant dipped in quickly, two or three times at a time, but it must not remain in more than two seconds at a time.

**The Rose Slug.**—Slugs frequently appear suddenly and increase very rapidly. They must be attacked instantly. Dust the plants thickly with powdered or air-slacked lime, plaster of Paris, ashes, or even road dust, and repeat the same vigorously as often as may be necessary. If more convenient, the plants may be thoroughly sprinkled and washed with a strong suds made with soap and salt, or with brine alone. Slugs seldom appear more than once in a season, and can easily be destroyed if taken promptly.

**The Rose Bug.** is of a grayish color and about one-half an inch in length. It appears suddenly in June, and feeds on the opening buds and flowers. The only cure is hand-picking. This is not a serious matter if attended to as soon as they appear. The best time to gather them is early in the morning. They may be quickly brushed or picked into a vessel containing water, after which they should be burned.

**Mildew** does not usually kill Roses, but retards their growth and sometimes prevents their blooming. It is believed to be induced by atmospheric causes, as sudden changes of temperature, moisture, etc. For out-door plants, a thorough stirring of the soil, with a view to encourage strong growth, is probably the best thing that can be done. In-doors the same treatment, with the addition of a fine dusting of flour of sulphur over the whole plant. Sulphur is the best known remedy for mildew.

**Red Spider.** is a very minute insect, first appearing on the under side of the leaves, and though difficult to see, its effects are quickly noticeable by the browned and deadened appearance of the leaves. It flourishes best in a hot, dry atmosphere, either in-doors or out; moisture is its greatest enemy. Sprinkle or wash your plants frequently, taking care to wash the under side of the leaves thoroughly, and you will not be troubled with Red Spider. In bad attacks it may be necessary to sponge the leaves daily with warm water until the pest is thoroughly destroyed.

**The Thrip** is very destructive to Roses in some sections of the West; it is a small hopper, varying in color from black to brown, and is found on the under side of the leaves. The best remedy is said to be a thorough wetting with a strong suds of whale-oil soap, or soap and salt, or very strong tobacco tea, taking care to wet thoroughly the under side of the leaves. We presume that a teaspoonful of Hellebore, or Paris Green, dissolved in a pail of water and applied in the same way, would be equally effective.

**As all Insects** like to be LET ALONE, and strongly dislike to be disturbed, they can frequently be kept in subjection by vigorously hoeing and raking the ground every day, dusting, sprinkling and washing the plants. We must destroy the pests by every means in our power.

---

**Winter Protection of Roses.**

Winter Protection is not so important a matter as formerly. The HYBRID PERPETUAL, MOSS AND CLIMBING ROSES, being mostly hardy, require but little protection, and all classes of Roses are now furnished so cheaply, that most people think it pays better to get new plants every year than to take much trouble in trying to keep tender sorts over, ESPECIALLY AS IT IS FOUND THAT FRESH YOUNG PLANTS FREQUENTLY GIVE MORE FLOWERS AND BETTER SATISFACTION THAN OLD ONES WINTERED OVER. We, however, give the best methods for Winter Protection, so that our friends can adopt any plan they prefer.

**Fall Treatment.**—In the Fall, the Rose beds should have a good dressing of stable manure or any fertilizing material that is convenient; the Winter rains will carry the strength down to the roots, and the remaining matter makes a nice mulch, which in many places is all the protection that is necessary. In very cold localities it is a good plan to cover the beds all over with old sods, fresh earth, or coal ashes, from three to six inches deep.

**Where the Winters are not very severe** tender Roses may be nicely covered with clean rye straw, forest leaves, or evergreen branches, but care must be taken not to put it on too thick; the covering should permit considerable circulation of air, and should not retain water; and nothing should be used that will ferment, heat or rot. The object of covering is not to keep the plants warm, but to break the force of sudden and violent changes, cold, drying winds, etc.

**Do not cover too soon.**—Whatever covering is used, it should not be put on till late in the season, when the plants are well matured and severe weather close at hand; moderate freezing is not injurious.

**To keep Roses in the Cellar.**—When Roses cannot be protected in the open ground they can sometimes be kept nicely in the cellar:—Take up as late in the season as safe, that is just before Winter actually begins, cut back the tops within six inches of the ground, and pack the roots in a box of nice, mellow soil, well firmed down; place the box near a window in a light, airy cellar, or some similar position, water occasionally during the Winter, but only when absolutely necessary to prevent shriveling, as dormant plants require but little water; set out in open ground as early in Spring as weather is suitable.

**The Best Way.**—In places where the Winters are not more severe than at New York, many varieties of the Ever-Blooming Roses are nearly hardy, and we think the best way to treat them is to leave all
in open ground, giving a nice light covering of forest leaves, clean straw, or evergreen boughs. Experience shows that the loss will be as light in this as in any other way, and it is much the least trouble.

When to Uncover.—Do not uncover in the Spring till frost has left the ground and there is a prospect of reasonably settled weather. When uncovered the plants should be carefully pruned, taking care to remove all dead wood, and the beds should be nicely dug over and raked.

Rose Hedges.—In many parts of the country Rose Hedges give good satisfaction, and when in bloom are objects of rare beauty; they do not make a fence of themselves, but are useful for concealing division fences, stone walls, etc. For upright Hedges in the Northern and Middle States, strong growing varieties of Hardy Hybrid Perpetuals are best, such as La Reine, Antoine Mouton, John Hopper, Duchess de Caylus, etc. They should be planted one foot apart in the row and cut back to a uniform height every Spring. The Hardy Climbing Roses make pretty screens when trained to ordinary fences, and are useful for covering walls and other unsightly objects. In the Southern States many varieties of the Ever-Blooming Roses make beautiful hedges and screens, and are unequaled in beauty for porches, verandas, etc.

Roses for Conservatories, Forcing-Houses, etc.—We give special attention to furnishing Roses for Conservatories, Forcing-Houses, etc. Our long experience and thorough knowledge of varieties enables us to recommend the best sorts to plant for pleasure or profit in different localities; we can usually furnish either large or small plants as desired; the small plants cost less and are preferred by the commercial growers, but most of those for conservatories are wanted in large-size plants, as they come into bearing sooner. Growing Rose buds for sale is fast becoming a large and profitable business, and there seems to be room for flower-growing establishments in almost all the towns in the country; we furnish the plants, but do not grow flowers for sale.

Information for Purchasers.

Guarantee.—All Roses and plants sent out by us to points within the United States, whether by mail or express, are guaranteed to reach the purchaser in good growing condition. In case of accident, by which they are injured or spoiled in any way before delivery, we request information to be forwarded immediately, so that they may be replaced at once. Having arrived in good order, our responsibility ceases.

Size and Quality of Plants.—The Roses we send are fine, strong, healthy plants—grown in pots. Many of the Ever-Blooming varieties are ready to bud when sent out, and will quickly come into full bloom. Where the season is sufficiently advanced they are suitable for planting at once in open ground, or they can be grown nicely in the house, in pots or boxes.

OUR ROSES ALL POT GROWN.—All our Roses are Pot Grown, and specially prepared for safe transportation and immediate bloom. They are grown in pots in ordinary fertile soil, without manure or stimulants of any kind; our design being to produce strong, healthy, well-matured plants, well furnished with working roots. Instead of forcing them into bloom here, we aim to keep them from blooming as much as may be, and to get them ready and in the best possible condition to grow and bloom quickly after planting out. Our Roses are not tired and needing rest, or petted and forced so that they demand unusually nice treatment, but are sent out strong and hungry, ready for work, inured to hardship and fully prepared to battle for life, and this is one great secret of their success. YOU CANNOT EASILY KILL THEM OR KEEP THEM FROM BLOOMING.

OUR ROSES ARE ALL ON THEIR OWN ROOTS.—All our Roses are grown from cuttings, and are therefore all on their own Roots. If the plants incline to sprout from the root, they should be encouraged to do so, as young, vigorous shoots frequently produce the finest flowers. They cannot throw up wild shoots, because root and top are the same; and, as long as any part of the plant remains, it will produce the same beautiful flower.

NO BUDDED OR GRAFTED ROSES SENT OUT.—We do not send out any budded or grafted Roses, for, notwithstanding all that is said in their favor by those who are interested in their sale, it is well known that budded and grafted Roses generally prove an utter failure in any but professional hands, and are entirely unreliable for general planting.

Why Roses may vary in Color and sometimes come Single and Imperfect when First Planted.—In describing Roses, we try to give the prevailing color of the perfect flower. Buds are sometimes very different in color from the same flower when fully open, and first blooms are frequently single and imperfect in form, as well as deficient in color and fragrance, because the roots are not sufficiently established to furnish the full amount of nourishment required. The same effects are also produced by other causes, as, for instance, poor ground, shade and insufficient light; too much or too little moisture; too close proximity to buildings or larger and stronger plants, trees, vines, etc. In fact, anything which interferes with the growth of the plant or impairs its vitality will lessen the beauty and color of the flower. Give your Roses opportunity to grow strong, and they will not disappoint you in color or fullness of bloom or fragrance.

How to Treat Roses when First Unpacked.—When Roses are first unpacked, whether very dry or not, it is a good plan to soak in quite warm water for an hour or so, leaving a part of the wrapping on.
This will be found to revive them greatly, and they should then be planted as soon as convenient, taking care not to allow them to wilt or wither.

Always Remember that Roses grown in a warm temperature should not be subjected to too sudden change. Buds that may be on when received should always be removed, as the effort to bloom while the roots are unable to furnish nourishment weakens the plant. If the tops should be accidentally broken in the package or otherwise, the plant is not necessarily injured; the vitality is in the root. Cut off the damaged parts, and new shoots will soon be formed in their places.

Express Orders.—For Express Orders we select the largest and best plants on hand at the time, and though we do not promise larger Roses by Express than we send by Mail (unless Two-year Roses are ordered, see page 45), we can generally send larger shrubs and other plants, and sometimes larger Roses. Our system of packing is so complete that we can ship with perfect safety during the coldest or hottest weather, and guarantee the plants to arrive in good condition.

We Ship by Express when Directed, the purchaser paying the Express charges. Many persons prefer to have their goods sent by Express, the plants have more room in the boxes and look larger and better when opened. Besides this, a portion of the earth can be left on the roots, which some consider a great advantage. Large orders should always be sent by Express when plants are wanted in best condition and the expense is not an objection; but we can send small orders of ordinary size Roses and plants, long or short distances, just as safely and satisfactorily by Mail, and save the purchaser the Express charges.

Better than we Promise.—Though our prices are very low for the quality of the plants we offer, we always try to do a little better than we promise, and give generous value and faithful service to all.

Presented Plants are marked P on back of label, and are frequently very choice sorts. Be sure to take good care of them; they sometimes give better satisfaction than those ordered.

Difference in Size of Varieties.—Do not expect all varieties to be of the same size; some are stronger growers than others, and make larger plants at the same age and under exactly the same conditions, and some of the smallest and weakest growers produce the most beautiful flowers; this is according to Nature, and can’t be helped.

Roses for Canada.—All plants for Canada must be sent by Express. The Express companies forward promptly at reasonable rates, and collect their charges and the custom duty at the office of destination. We should be glad to send Roses by mail to all the British Provinces, BUT CANNOT DO SO, because the International Postal Regulations do not permit the U. S. Mails to carry packages of plants over 8 oz. in weight, or having any intrinsic value, to Canada or any foreign country.

Roses for Foreign Countries.—For the reason given above, WE CANNOT NOW SEND ROSES BY MAIL TO ANY FOREIGN COUNTRY, and we have found it so difficult and unsatisfactory to forward SMALL PACKAGES by either Ocean Express or Steamship Lines, that we do not invite orders from foreign countries, unless from persons who have agents or friends on this side who will receive and forward the plants to them.

Purchaser’s Choice of Varieties.—We endeavor to grow all varieties we offer in sufficient quantity to furnish exactly what is ordered. We always have an enormous stock to select from, and try to fill all orders exactly as given.

Which are the Best Varieties.—We cannot give a list of the best varieties, because those that are best for one place may not be so for another; but we will cheerfully select for purchasers who direct us to do so; and if we are told the class of Roses wanted and the colors preferred, we can always insure satisfactory results, both in the varieties and the quality of plants.

Why our Business is so Large.—The wonderful vitality and early-blooming power of the Roses grown by our special methods; the unrivaled collection of varieties to choose from, and the prompt, liberal and careful manner in which we fill all orders, has brought us an immense trade. Orders pour in by every mail from all sections of the country, and are filled and forwarded with the regularity of clock-work.

Correction of Errors.—We take all possible care to avoid errors, and when any occur request information to be forwarded immediately, so that they can be corrected at once; we cannot afford, and do not mean to have a single customer dissatisfied, if prompt and careful attention to his wants will prevent it.

Pleasant Entertainment.—We aim to make it as safe and pleasant, and in every way as satisfactory, to order Roses by Mail, as it would be to purchase them of us if you were here in person.

Mailing Boxes.—We pack in strong wooden boxes, with live moss filling. Though this is the most expensive way, it is the best, and therefore we use no other.

Weight of Mail Packages.—The weight of packages that can be sent by Mail is limited to four pounds, and though this will admit quite a number of fine Roses, larger orders are frequently wanted. When desired, large orders can be made up in small packages and sent by Mail; but it is generally best, unless to very remote points, to direct large orders sent by Express.

When making up an order, don’t forget the Premium Roses, New Roses of ’87, and Diamond List Roses. See all our Special Offers, and remember our VERY LIBERAL CLUB TERMS. Perhaps a few Neighbors would like to send with you, and, by forwarding their orders with your own, you do them a kindness and secure the club reward.
To Correspondents.

Be sure to Write your Address plain and distinct. Give your Full Name, Post-Office, County and State. If you have occasion to write us more than once, always sign the same name, and give your Address in full.

Size of Orders.—Orders for roses and other plants should amount to at least $1—50c. worth is the very least that will pay for mailing at all. If smaller quantities are wanted, 10 CENTS MUST INVARiABLY BE ADDED FOR POSTAGE. This applies to plants alone, and not to bulbs and seeds, which can be sent in smaller amounts when desired without adding postage.

Postage Stamps.—Please don’t send postage stamps IN PLACE OF MONEY, unless you can’t get anything else. If impossible to get a Post-Office Order or Bank Draft, remember you can send NOTES, or GOLD OR SILVER COIN by REGISTERED LETTER, AT OUR RISK, FROM ANY POST-OFFICE IN THE UNITED STATES. All Postmasters are obliged to Register Letters when requested to do so.

Why some Letters Fail to Reach Us.—Some people are very much surprised if a letter of theirs fails to reach us, but the truth is, a few letters are constantly lost and stolen from the mails, and those who send money loose in ordinary letters are sure to be the victims. The remedy is to make all remittances by Post-Office Order, Bank Draft or Registered Letter, and never to send money loose in ordinary letters.

Orders Promptly Answered.—All orders received by us are filled immediately on their receipt. There is no deviation from this rule, unless for a short time in the height of the season, when it may be impossible to fill the orders as fast as they come to hand. In this case every order is acknowledged by mail as soon as received, and filled promptly in rotation as quickly as possible.

Lost or Delayed Orders.—If you do not hear from us in a reasonable time after sending your order, it is evidence that the order has not been received by us, or that our reply has miscarried, and you should send a letter of inquiry at once.

If you sent a Post-Office Order, give the number, date and amount, office of issue and where payable, and a list of what you want, and we will fill and forward at once, if not already done. If you sent a Bank Draft, give Bank of Issue, Number, Date and Amount, and a list of what you want, and, if not already done, we will fill and forward at once.

If you sent Money by Registered Letter, tell us the amount, and enclose Postmaster’s Receipt showing the date and number, also list of what you want; and, if not already done, we will fill and forward at once.

If you sent Money Loose in Ordinary Letter, without Registering, contrary to our advice and direction, it is entirely at your own risk, and if lost there is no redress, as we will not be responsible for money sent in this way unless it is received.

Ask at the Post-Office.—If plants sent by Mail are not received promptly, be sure to ask at the Post-Office for them. Some Post-Offices hold such packages until asked for, and city carriers do not always deliver them unless specially requested.

How to Send Money.

All money sent us in either of the three ways given below is at our risk, and we will send full value for it in all cases:

First.—POST-OFFICE ORDERS, payable to The Dingee & Conard Co., at West Grove Post-Office, Chester County, Pa.

Second.—BANK DRAFTS, payable to our order, on New York, Philadelphia, or any principal City.

Third.—MONEY IN REGISTERED LETTERS.

Postal Notes.—The New postal Note is not a safe remittance, because, IF LOST OR STOLEN, THE SENDER HAS NO REDRESS, THE GOVERNMENT ISSUES NO DUPLICATES, and therefore we cannot be responsible for their receipt. AS MONEY ORDERS CAN BE OBTAINED AT ALL POST-OFFICES WHERE POSTAL NOTES ARE FOR SALE, IT IS ALWAYS BEST TO GET MONEY ORDERS, they cost a trifle more, but are absolutely safe, and you run no risk of losing your money.

Notice.—We will not be responsible for money sent loose in ordinary letters. IT IS NOT SAFE. Persons who send it in this way must take the risk themselves, and if lost must not expect us to make it up; we cannot do so.

Canada.—(See page 9.) Friends in Canada can remit by International Postal Order on West Grove P. O., Chester Co., Pa. (West Grove is an International Money Order Office), Bank Draft on New York, or Canadian Currency in Registered Letter.

Note.—Post-Office Orders should always be enclosed in the letter with the List of Plants wanted; both will then be received at the same time, and there will be no cause for delay in filling.

An elegant rose presented.—We present free, in addition to all other
Preminums, AN ELEGANT ROSE—your choice from the Standard Collections—for every remittance made us for plants by POSTAL ORDER, BANK DRAFT or REGIS-
TERED LETTER. When the remittance amounts to $5 or more, we will present a NEW or DIAMOND LIST ROSE. The Rose presented for this purpose will be marked R. on the back of the label containing the name.

Please send the Remittance with the Order.—We do a strictly Cash Business; the proper remittance must in all cases accompany the order. The vast number of orders to be filled and forwarded by every mail during the busy season renders it impossible to keep open accounts. The price of each article is plainly given, so that every one can tell the exact cost. Please send the remittance with the order, and, besides being promptly and liberally served, YOU WILL FIND THAT WE DO BETTER THAN WE PROMISE.

NOTICE.—We ship by Mail or Express as directed. When sent by Mail we pay the postage, but when sent by Express the purchaser pays the Express charges. See Express Orders, page 9.

PLANTERS who wish SEVERAL HUNDRED Roses or other Plants for their own use, should send a list of the varieties and number of each wanted, and we will examine carefully and give lowest prices by next mail. Ordinary orders are invariably at prices given.

Club Terms.

ROSES FREE.—A little time spent in taking orders of your friends and neighbors will secure for yourself, WITHOUT ANY MONEY, a splendid collection of the NEWEST and CHOICEST ROSES and PLANTS.

It is very easy to get up Clubs for our Roses and Plants, because of the excellent quality of our stock. Our generous and careful treatment of customers has made our establishment famous; and this year, notwithstanding we have still further lowered our prices, we are giving the same Club rewards that we gave in previous seasons.

Our Club Department is very successful and has grown rapidly. We devote special attention to it; each order comprising the Club is carefully selected as directed, and tied separate, so there is nothing to do but deliver the bundle.

WE ALWAYS AIM TO DO A LITTLE BETTER THAN WE PROMISE, and even after our very liberal Club rewards, we present to the clubber all the extras that can possibly be afforded for the trouble of delivery. We can send to separate addresses when requested, but cannot fill so liberally in such cases, as the cost of sending small lots to different addresses is much greater than sending all to one address.

NOTICE.—Our friends who get up Clubs may select the New and Diamond List Roses to which they are entitled from the New and Diamond Lists, the New Hybrid Teas and the Polyantha Roses. The Colored Plate Roses, Moss Roses and other special high-cost sorts are reserved for actual purchasers, and are not offered in Club Rewards.

NOTE.—CLUBS MAY BE MADE UP OF ANY ARTICLES OFFERED IN THE GUIDE, INCLUDING FLOWER SEEDS, AT THE PRICES GIVEN.

For a Club amounting to $3, we present 1 Premium Rose, and 3 Roses, your choice from the Standard or Star Lists.
For a Club amounting to $4, we present 2 Premium Roses, and 4 Roses, your choice from the Standard or Star Lists.
For a Club amounting to $5, we present 1 New or Diamond List Rose, 2 Premiums, and 5 Roses from the Standard Star Lists, your choice of varieties. 
For a Club amounting to $6, we present 2 New or Diamond List Roses, 2 Premiums, and 6 Roses from the Standard or Star Lists, your choice of varieties. 
For a Club amounting to $7, we present 3 New or Diamond List Roses, 2 Premiums, and 7 Roses from the Standard or Star Lists, your choice of varieties. 
For a Club amounting to $8, we present 4 New or Diamond List Roses, 2 Premiums, and 8 Roses from the Standard or Star Lists, your choice of varieties. 
For a Club amounting to $9, we present 6 New or Diamond List Roses, 2 Premiums, and 9 Roses from the Standard or Star Lists, your choice of varieties. 
For a Club amounting to $10, we present 8 New or Diamond List Roses, 2 Premiums, and 15 Roses from the Standard or Star Lists, your choice of varieties. 
For a Club amounting to $15, we present 10 New or Diamond List Roses, 2 Premiums, and 20 Roses from the Standard or Star Lists, your choice of varieties. 
For a Club amounting to $20, we present 16 New or Diamond List Roses, 2 Premiums, and 30 Roses from the Standard or Star Lists, your choice of varieties. 
For a Club amounting to $50, we present 40 New or Diamond List Roses, 4 Premiums, and 50 Roses from the Standard or Star Lists, your choice of varieties. 
For a Club amounting to $100, we present 100 New or Diamond List Roses, 10 Premiums, and 200 Roses from the Standard or Star Lists, your choice of varieties. 

NOTE.—Persons who get up Clubs and would prefer their reward in money, rather than in Roses and Plants, should enclose stamp for our CIRCULAR, No. 2, which gives full information and will be sent on application.

Our Stock is larger and finer this year than ever before. It is not approached in extent and variety by any establishment in this country or Europe, and it is a fact that, QUALITY CONSIDERED, our Roses and Plants are the cheapest and most satisfactory that you can buy.

A BED OF EVER-BLOOMING ROSES—MIXED VARIETIES.

Nothing gives better satisfaction than a bed of Beautiful Ever-Blooming Roses. The one shown in the engraving is planted with mixed varieties from our Standard Collections, edged with one of the pretty Polyantha Roses Mignonette, Montravel or Cecile Bruner (page 18); the effect is very fine, and we can gather whole handfuls of Roses from such a bed all Summer long, from June to December. Some people prefer but one kind in a bed, but we think mixed varieties generally give the most pleasure.

PRICE OF ROSE BEDS.—We furnish Roses for beds—purchaser's choice of varieties, OR, IF PREFERRED, WILL SELECT CAREFULLY BEST SORTS FOR THE PURPOSE, all labeled, as follows:

A CIRCULAR Bed, 3½ FEET IN DIAMETER, holds 25 Roses. Price, selected from Standard List, $3.10; from Diamond List, $4.25; from Star List, $2.05.

BED, 4½ FEET IN DIAMETER, holds 38 Roses. Price, selected from Standard List, $4.75; from Diamond List, $6; from Star List, $3.10.

BED, 5½ FEET IN DIAMETER, holds 55 Roses. Price, selected from Standard List, $6.50; from Diamond List, $8.25; from Star List, $4.40.

An 8-FOOT Bed holds 75 Roses. Price, selected from Standard List, $9; from Diamond List, $11.25; from Star List, $6.

A 10-FOOT Bed holds 100 Roses. Price, selected from Standard List, $12; from Diamond List, $15; from Star List, $8.
NEW GUIDE TO ROSE CULTURE.

13

A 12-foot Bed holds 150 Roses. Price, selected from Standard List, $18; from Diamond List, $22.50; from Star List, $12.

NOTE.—When beds are selected from the Standard or Diamond Lists, we can, when desired, INCLUDE ENOUGH POLYANTHA ROSES TO MAKE THE OUTER CIRCLE (as shown in the engraving), without additional charge.

THE ABOVE BEDS SELECTED FROM THE STAR LISTS, if edged with Polyantha Roses, will cost $2.45, $3.65, $5, $7, $9.20, and $13.50 respectively.

FIVE SPECIALLY VALUABLE, NEW AND RARE HYBRID PERPETUAL ROSES, ALL PERFECTLY HARDY.

NOTE.—We ask attention to these splendid varieties; they are scarce and valuable.

JEAN LELIEVRE.

Jean Lelievre.—We take great pleasure in asking attention to this grand Rose. It is NEW AND RARE, and exceedingly beautiful; a robust grower and entirely hardy; the flowers are extra large, fine, full form and perfectly double; color, bright shining crimson, passing to deep velvety maroon, very sweet, and altogether one of the best in every way. 50 cents; $5 per dozen.

Baroness Rothschild.—This superb variety is one of the most beautiful of all Roses. The flowers are of immense size, perfect form and exquisite color, a rich and lovely shade of pale pink, delightfully perfumed; an ideal Rose in every way. Being very difficult to propagate, it is always scarce and high-priced. 75 cents; $9 per doz.

Marshall P. Wilder.—This fine New Rose originated in this country and was named in honor of the venerated President of the National Pomological Society. It is a Rose of unusual excellence; flowers are large, semi-globular, full and of good substance; color, bright scarlety crimson, richly shaded with maroon, very fragrant and a free bloomer. 50 cents; $5 per doz.

Mabel Morrison.—A rare and very beautiful Rose, extra large size, full regular form, broad shell-like petals; color, pure snow white, sometimes faintly tinged with pink, in the way of Baroness Rothschild. 75 cents; $9 per doz.
Her Majesty.—This Grand New Hybrid Perpetual Rose originated in England, where its immense size and wonderful beauty have made a great sensation. It is said to be the LARGEST and one of the most beautiful Roses ever grown; the blooms are of immense size, remarkably beautiful form and perfectly double; the color is a lovely shade of rosy-pink passing to clear flesh, elegantly tinged and shaded with amaranth and silver rose. The plant is a strong upright grower, and believed to be perfectly hardy. $1 each; $10 per doz.

SPECIAL OFFER.—The "Her Majesty" Set of 5 New and Rare Hybrid Perpetuals named above for $3. With the two beautiful Premium Roses, Madame de Watteville and Charles Legrady (page 19), 7 for $3.20; or, with the 3 other Celebrated New Roses, WM. F. Bennett, American Beauty and The Bride, 10 in all, for $4.70.

Newark, N. J., May 26, 1886.

S. Eveline Parkhurst.

The Grand New Rose—Her Majesty—it is confidently believed, is one of the finest Remontants introduced for many years; the blooms are remarkably large and wonderfully beautiful in form and color, the latter a lovely soft flesh tint.—(London Gardener.)
Splendid Perpetual Moss Roses.

**Countess of Murinais. —** One of the finest pure white Moss Roses; the buds are elegantly mossed; flowers large, full and fragrant; a valuable and very beautiful variety, but not a perpetual bloomer. 35 cents; two-year size, 50 cents.

**New Perpetual Moss Rose, Mousseline.**—Extra fine, large, very full, and delightfully fragrant; color, pure white, sometimes delicately shaded with rosy blush; elegantly mossed and very beautiful; a continuous bloomer. 50 cents.

**Perpetual Moss Rose, James Veitch.**—One of the finest Perpetual Moss Roses, extra large flowers, very fragrant and full; color, bright carnation red; very fine. Price, 50 cents.

**"Perpetual White" Moss Rose.**—One of the most mossy varieties; prettiest in bud; the flowers are of medium size, and borne in large clusters; fragrant, but not very double; color, pure white. 50 cents; two-year size, $1.

**Perpetual Moss Rose, Madame Moreau.**—Buds finely mossed and very beautiful; the flowers are extra large, perfectly full and double; color, rich carmine, with crimson and scarlet centre; petals exquisitely edged with white; very fragrant. 50 cents; two-year size, $1.

**Perpetual Moss Rose, Blanche Moreau.**—New and highly recommended; flowers are produced in clusters, and are large, full and sweet; the color is pure white, and both flowers and buds have an abundance of lovely deep green moss. 50 cents; two-year size, $1.

**SPECIAL OFFER.**—The set of 6 named above for $2.50. In two-year size (except James Veitch, which is but one-year) set of 6 for $4.50. *Two-year Roses by EXPRESS ONLY.

Moss Roses.

Moss Roses stand alone in picturesque beauty, different and distinct from all others. Their opening buds, half-covered with delicate clinging moss of fairy-like texture, command our especial admiration and well deserve the loving tributes paid them in poetry and song.

The Moss Rose is a strong, vigorous grower, PERFECTLY HARDY, and therefore justly esteemed as very desirable for out-door culture in open ground. Most varieties bloom but once in the season, and usually not the first year, but the flowers and buds are very large and handsome, they remain in bloom a long time, and are highly prized wherever beautiful Roses are known. Moss Roses like rich ground and are much improved in beauty and fragrance by liberal manuring and good cultivation, but they bear hardships and neglect well, and always bloom profusely. Being difficult and slow of propagation, the price is higher than for other Roses.

The Price of Moss Roses is 25 cents each; 4 for $1; the set of 14 varieties for $3.25.
General Collection---Moss Roses.

Captain Ingram.—Brilliant carmine; large full flowers, very double and mossy. 25 cents.
Elizabeth Rowe.—Bright satiny pink, very large and double, fragrant and finely mossed. 25 cents.

Glory of Mosses.—A magnificent Moss Rose; extra large and perfectly double; color, deep rosy carmine, shaded purplish-crimson; very mossy and fragrant, one of the finest. 25 cents.
Henry Martin.—Rich glossy pink, elegantly tinged with crimson; large globular flowers; very full and sweet; finely mossed. 25 cents.
Hortense Vernet.—Fine rosy carmine; large, full and sweet; buds beautifully mossed. 25 cents.
Luxembourg.—Bright crimson scarlet; large and double; very sweet and mossy; one of the finest. 25 cts.
Lanei.—Large, bold flower, very double, full and fragrant; color, rich crimson, delicately shaded with rosy purple; very mossy. 25 cents.
Madame Dupuy.—White, shaded with rosy blush; splendid large flowers; very double and sweet, and very mossy. 25 cents.
Madame Rochlember.—Fine, clear pink; extra large fragrant flowers; full and globular; nicely covered with moss. 25 cents.
Purpurea Rubra.—Violet purple; large, full form, very double and fragrant; nicely covered with fine moss. 25 cents.
Princess Adelaide.—One of the best; extra large flowers; very double and fragrant; buds beautifully mossed; color, bright, rosy pink. 25 cents.
Raphael.—Beautiful buds; very large and densely covered with lovely moss; color, pinkish-white, shaded with rose; large, very full and sweet. 25 cents.
Zebrina.—Extra large and fragrant; rich crimson purple, splendid color; very fine, very dense moss; very double and full. 25 cents. Set of 14 varieties for $3.25.

Hardy Ever-Blooming Climbing Roses.

In reply to many inquiries for Hardy Climbing Roses, which are also Constant Bloomers, we would say the varieties named below are the best there are, and we think will give good satisfaction; most of them bloom the first season, but they bloom better and more profusely after being out over Winter and getting well established. They are generally hardy in the Middle States, but should have a light covering of straw or evergreen boughs during Winter. They are strong growers and bloom finely at short intervals all through the season, from early Summer to late Fall, and the flowers are very beautiful and fragrant. These varieties belong among the Ever-Blooming Roses, but are put in this list for the convenience of persons who wish the BEST HARDY EVER-BLOOMING CLIMBING ROSES.

Madame Alfred Carrier.—Extra large full flowers, very double and sweet; color, rich creamy white, faintly tinged with pale yellow, exceedingly beautiful; a strong hardy grower and free bloomer.

Climbing Hermosa.—Clear bright pink flowers, medium size, full and regular, very fragrant, a strong grower and free bloomer.

James Sprunt.—Deep cherry-red flowers, medium size, full, very double and sweet, a strong grower and profuse bloomer.

Washington.—An extra strong grower, and a constant and very profuse bloomer; flowers are large, pure white, very double and borne in beautiful clusters.

Reine Marie Henriette.—Large, finely formed flowers, very full and double, borne in clusters and Tea scented; color, rich crimson, elegantly shaded. New and fine.

Cheshunt Hybrid.—Extra fine large flowers, very double, full and perfect form, delightfully fragrant; color, ruby crimson, passing to rich maroon; a strong grower and quite hardy.

PRICE, 15 CENTS EACH; 7 for $1; 16 for $2; 50 for $6; $12 per hundred. SET OF SIX NAMED ABOVE, and the New English Climber, WALTHAM QUEEN, on opposite page, 7 for $1.15.
Hardy Climbing Roses.

Climbing Roses are highly valued for training over arbors, trellises and verandas; also as screens for unsightly objects, such as old buildings, fences, walls, etc. They grow ten to twelve feet high and are entirely hardy. They bloom the second year and but once in the season, but are then loaded with splendid Roses, and are among the most beautiful of flowering plants. The varieties described below are the best, and succeed well in all sections of the country. In the South, where the Ever-Blooming Roses are hardy, many of them can be used as Climbers.

GENERAL COLLECTION—CLIMBING ROSES.

Prairie Queen.—Clear, bright pink, sometimes with a white stripe; large, compact and globular, very double and full; blooms in clusters; one of the finest.

Baltimore Belle.—Pale blush, variegated carmine, rose and white; very double; flowers in beautiful clusters, the whole plant appearing a perfect mass of bloom; one of the very best Climbing Roses.

Champney.—A fine, hardy pillar Rose, quite double and very fragrant; flowers deep rose, changing to clear pink; desirable.

Gem of the Prairie.—Bright violet crimson; large, very double and fragrant; not so free a bloomer as some, but a valuable sort.

Greville, or Seven Sisters.—Flowers in large clusters; varies in color from white to crimson.

Pride of Washington.—Brilliant amaranth, shaded rose centre; large clusters; very double; fine.

Russel’s Cottage.—Dark velvety crimson; very double and full; a profuse bloomer,

Superba.—A splendid sort; large, very full and double color, bright rosy pink, clear and beautiful; blooms in continuous clusters.

Crimson Boursault.—A strong, vigorous grower, almost free from thorns; large semi-double flowers; color, dark, rich crimson; profuse bloomer.

Milledgeville, or Pride of the South.—A splendid variety; color, rich satiny pink, very fresh and beautiful; fine large globular flowers, full regular form, very double and sweet; a profuse bloomer and quite hardy.

Price of Climbing Roses.—15 cents each; 7 for $1; SET OF 10 FOR $1.25; 16 for $2; 24 for $3. Same as Standard List. See page 35.

New English Climbing Rose—Waltham Queen.

This splendid NEW EVER-BLOOMING CLIMBING ROSE is introduced from England, where it has given great satisfaction. It is believed to be a valuable acquisition, particularly for the South and Pacific Coast, and, though not entirely hardy in the North, will probably do well in many situations in the Middle States. It is a strong grower and continuous bloomer; the flowers are large, full and sweet; color rich scarlety crimson, very beautiful and a profuse bloomer.

Price, 25 cents; or, with set of six Ever-Blooming Climbers named on opposite page, 7 for $1.15.
The New Polyantha Roses.

We recommend these exquisite varieties to all lovers of rare and beautiful Roses. They are moderately hardy, but should have protection during Winter.

**FLORIBUNDA.**—A beautiful new variety just introduced. Flowers pale rose color, medium size, very double and fragrant and borne in large clusters; constant bloomer. 25 cents; $2.50 per doz.

**PERLE D'OR** (New 1885).—Charming and very distinct; color, coppery gold, changing to fawn and salmon; flat, rayed form, very double and elegantly perfumed. Price, 20 cents; $2 per doz.

**ANNE MARIE DE MONTRAVEL.**—A beautiful, pure white, fairy-like Rose; very double, perfect flowers, delightfully scented and borne in such large clusters that the whole plant appears a mass of bloom. Price, 20 cents; $2 per doz.

**JEANNE DRIVON** (New 1885).—A lovely Rose; perfect, full form, very double and sweet; color, pure white, faintly tinged with crimson. Price, 15 cents; $1.75 per doz.

**MIGNONETTE.**—One of the most lovely and beautiful miniature Roses imaginable; full, regular flowers, perfectly double and deliciously perfumed; color, clear pink, passing to white, tinged with pale rose. Price, 15 cents; $1.75 per doz.

**MAD'ELLE CECILE BRUNER.**—Larger flowers than either of the others, very full and regular, perfectly double, and delightfully fragrant; color, rosy pink on rich creamy white ground. Price, 15 cents; $1.75 per doz.

**PAQUERETTE.**—An elegant little Rose, the smallest of the lot; full regular flowers; pure snow white; a profuse bloomer. Price, 15 cents; $1.75 per doz.

**LITTLE GEM.**—A lovely variety; flowers of perfect form, very double and full; pure creamy white, sometimes delicately tinged with rose. Price, 15 cents; $1.75 per doz.

**SPECIAL OFFER.**—Set of 8 for $1.25; with the two beautiful Premium Roses, 10 for $1.40.
OUR SPLENDID PREMIUM ROSES.

Our splendid Premium Roses, MADAME DE WATTEVILLE and CHARLES DE LEGRADY are sent FREE as follows: To every one who orders one dollar’s worth or more Roses or other plants, and at the same time adds 10 cents to pay postage and packing, WE SEND FREE either one (your choice) of these Elegant New Roses—or both for 20 cents. Persons who order repeatedly and desire other Premiums, can select from the Hybrid Tea, Polyantha or Standard Lists on same terms.

MADAME DE WATTEVILLE.—This grand New Ever-Blooming Rose is one of the most beautiful Premiums we have ever sent out, and we expect will be called for in nearly every order. The color is a remarkable shade of creamy yellow, richly colored with rosy blush; the petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full and highly perfumed. Free to all who add 10 cents to their orders for postage and packing; 20 cents added gets both Premiums.

CHARLES DE LEGRADY.—One of the best new Roses of last year—then offered for the first time and sold at 35 cents; flowers are large, fine form, very double and sweet; color, dark crimson richly shaded with purplish-red, sometimes bordered with silver rose. A constant and profuse bloomer; extra fine. Free to all who add 10 cents to their orders for postage and packing; 20 cents added gets both Premiums.

Our Colored Plates and other Specially Valuable New Roses.

WILLIAM FRANCIS BENNETT.—This beautiful New Rose continues to attract a great deal of attention; it originated in England and was considered so valuable that it was sold for FIVE THOUSAND DOLLARS, the highest price that any Rose was ever known to bring. It belongs to the class of Hybrid Teas; the plant is a robust grower and a most constant and persistent bloomer. The buds are EXTRA LARGE, remarkably beautiful and delightfully fragrant; color, intense dazzling crimson, ONE OF THE BRIGHTEST COLORED ROSES EVER GROWN. It is very valuable for forcing and greenhouse culture, and will probably do well in open ground where the Summers are not too hot and dry. It is moderately hardy, but will require protection north of Washington, D.C. Price, 50 cents; $5 per doz.

Colored Plate, No. 1. Shows the Finest New Roses of 1887.

SOUVENIR DE VICTOR HUGO.—A remarkably handsome New Ever-Blooming Rose introduced from France; color, lovely chamois red with amber and fawn centre; large, finely formed flowers, delightfully perfumed. Price, 50 cents; $5 per doz.
COMTESSE DE FRIGNÉUSE.—An elegant New Tea Rose, imported from Paris and now offered for the first time in this country; color, deep golden yellow, thought to be the finest Deep Yellow Rose Lately Introduced. Flowers are large and full, with long pointed buds; valuable for cutting and very fragrant; a strong, healthy grower and free bloomer. Price, 60 cents; $6 per doz.

THE BRIDE.—A superb New Pure White Tea Rose, believed to be one of the best Pure White Roses ever introduced. The buds and flowers are unusually large, finely formed, very double and full and deliciously perfumed; it is a strong, healthy grower and free bloomer. Every lover of rare and beautiful Roses wants The Bride. Price, 50 cents; $5 per doz.

SET OF 3 (COLORED PLATE, No. 1) FOR $1.50.

Colored Plate, No. 2, Shows the Finest New Roses of 1886.

AMERICAN BEAUTY.—This splendid New Rose promises to be one of the most valuable ever introduced; it is a Hardy Hybrid Perpetual, but blooms almost as constantly as the Teas. It has proved to be one of the very best for greenhouse culture, and is believed to be equally good for out-door planting. It is a strong, vigorous grower and very free bloomer. The buds and flowers are extra large, very full and double, and exceedingly sweet; color, dark rich crimson, exquisitely shaded. Recommended as one of the very best Roses of its class. Price, 50 cents; $5 per doz.

MADAME JEAN SISLEY.—The petals of this elegant Rose are finely fringed or crimped, which gives the blooms an unusually beautiful appearance. Color pure snow white, sometimes creamy white, faintly tinged with pale carmine. SPACE REQUIRED.—It don’t require as much space to plant 1000 Roses as might be expected. Plenty of people have ample room who never think of it. For the best effect the first season the Ever-Blooming Roses may be planted rather less than one foot apart each way. A bed 22 feet long by 10 feet wide holds 250 Roses nicely. A circular bed 10 feet in diameter holds 100 Roses, and one 16 feet in diameter holds 250. If you wish beds of separate colors let us know size of beds and colors wanted, and we will see that you get the best sorts for the purpose. For Prices of different sized beds see page 12.

DINGEE & CONARD COMPANY—Dear Sirs:—The Roses and other plants were received in splendid condition. The ladies were very much pleased with them; I am perfectly delighted with mine. Please accept our thanks.

Yours truly,

MRS. G. G. PALMER.

Knappton, Wash. Ty., April 4, 1886.

DINGEE & CONARD COMPANY—Dear Sirs:—I wish to thank you for the many beautiful Roses and Shrubs which you sent me; they were packed so nicely and came in such good condition. Next year I shall send for more.

Yours truly,

MRS. M. P. CALLENDE.

Medora, Ills., April 16, 1886.
Five Highly Celebrated New Tea Roses.

Note.—These charming New Tea Roses are all Gems, each one is noted for special beauties of its own; they embrace the most handsome shades of color, but are all entirely different, and together make a very beautiful collection.

SUNSET.—This grand Rose is one of the most beautiful varieties lately introduced; the demand for it constantly increases. It is a strong, vigorous grower and free bloomer, good for both open ground and house culture; the flowers are extra large, fine, full form, and deliciously perfumed; color, rich golden amber or old gold, elegantly shaded with dark ruddy crimson, resembling the beautiful tints seen in a Summer sunset. 35 cents.

GRACE DARLING.—A splendid New Tea Rose, introduced by Henry Bennett, of Shepperton-on-Thames, England; color, porcelain rose, elegantly shaded with vinous crimson; medium size, handsome flowers; very sweet. 25 cents.

LOUIS GONTIER.—A very promising New French Rose; the flowers are medium size, very full, regular form, delightfully sweet; color, rich ruddy crimson, with creamy white centre, very pretty and attractive. 25 cents.

CHARLES LEVEQUE.—An elegant new Rose imported from France, and offered for the first time last season; large, well-formed flowers, quite double and full; color, pale carmine rose, with bright crimson centre; very fragrant and desirable. 25 cents.

EMPERESS MARIE OF RUSSIA.—A splendid new variety introduced from Europe, and highly recommended; fine, stately flowers, extra large, very full, and delightfully sweet; color, fine canary yellow, passing to white, delicately tinged with pale lemon; very beautiful. 25 cents.

BINGHAMTON, N. Y., Oct. 31, 1886.

DINGEE & CONARD COMPANY—Dear Sirs:—I sent you last Spring for one dollar’s worth of Ever-Blooming Roses, and I must say I never spent a dollar for plants that gave me so much satisfaction. The Roses have been in bloom all Summer, and are now full of buds. I regret I did not send for more. Yours truly,

MRS. C. E. THOMPSON.

Oxford, Ohio, May 21, 1886.

DINGEE & CONARD COMPANY—Dear Sirs:—The order came duly to hand by express. All parties are more than pleased with your generous treatment.

Truly yours,

JAS. MOLLYNEAUX.

GREENVILLE, S. C., April 17, 1886.

DINGEE & CONARD COMPANY—Dear Sirs:—The plants arrived in nice order; many thanks for those thrown in—I was surprised at the number of them. Your Catalogue is very tempting; it made me want to strike a mine and send you a big order at once.

Yours truly,

MRS. P. T. HAYNE.
Our Beautiful Ever-Blooming Roses.

The Dingee-Conard Roses are the finest in the world; they are remarkable for quick and constant bloom, exquisite beauty and delicious fragrance.

Constant Bloomers.—Our EVER-BLOOMING ROSES begin to bloom soon after they are planted out, and continue blooming through all the Summer and Autumn months, until frozen up or covered with snow. The flowers are of beautiful form, very double and full; delightful fragrance, and of all the lovely shades of color that Roses ever assume.

They do Well Everywhere.—These beautiful Roses thrive and bloom nicely in all parts of the United States and most sections of Canada.

Are they Hardy?—No, not entirely so, though many varieties will bear the Winter in most sections of the Middle States, if given a light covering of leaves or evergreen branches. The tops may be killed quite to the ground, but if cut back to the live wood, and the roots are not hurt, they will throw up new shoots and bloom as well as ever.

Not a Serious Matter.—If they are occasionally killed by the Winter, it is not a serious matter, as they can now be replaced as cheaply as bedding plants, which are bought for one season only. No flowers better repay their trifling cost than our beautiful Ever-Blooming Roses, and, if necessary, you can well afford to get fresh plants every year. In the South they flourish luxuriantly and grow to large size.

Selection of Varieties.—Our friends can select any varieties they prefer, or, if they desire it, we will select for them; and if we are told the colors preferred, and what the Roses are for, we can select with the certainty of giving perfect satisfaction. The varieties will all be labeled exactly as if selected by the purchaser.

SPECIAL OFFER.—The set of 111 Standard Ever-Blooming Roses for $12.

Hybrid Perpetual Roses.

The Most Valuable of all Roses.—The Hybrid Perpetuals are the most valuable of all Roses. They are particularly desirable for cold climates, because they are entirely hardy; also for the South, as they are fully as beautiful, but entirely different from the Ever-Blooming Roses which flourish there so luxuriantly.

Flowers very Large.—The flowers of this class are very double and of immense size (frequently from five to six inches in diameter), delightful fragrance and of the most gorgeous and dazzling colors, but no shades of yellow.

Plants are Hardy and Vigorous.—The plants are mostly strong and vigorous growers, requiring but little attention and living on from year to year, though a light covering of straw, leaves or evergreen branches in Winter is always desirable in exposed situations. These are the HARDEST ROSES, and may be expected to bear safely any reasonable degree of cold. When you plant Hybrid Perpetuals, you may be sure of having Roses every year without further trouble.

Not Constant Bloomers.—Though called "PERPETUAL," it must be understood that they are not such early and constant bloomers as the Ever-Blooming Roses. Some varieties do not bloom the first year, but grow strong and get ready for the next. When once established, they bloom freely at usual time early in the season and many varieties continue to bloom at short intervals during the Summer and Autumn months. Like all valuable flowers, they are much improved in size and beauty by rich ground and good cultivation.

Not Suitable for House Culture.—The Hybrid Perpetuals should always be planted in open ground. They are not suitable for house culture; the Ever-Blooming, Hybrid Tea, and Polyantha Roses are best for this purpose.

Hardy Hybrid Perpetual Roses, Standard List FOR GENERAL PLANTING.

Our Star List Roses.

Our Star List Roses are very popular and give excellent satisfaction. They are varieties which for various reasons we can afford to sell very cheap for the present season; they may be as good as the best (the plants are always as large and fine as any we send out), but perhaps they went slow last year, or are in surplus, or are new sorts not sufficiently known to be asked for—away they go to the Star List, where the low price soon finds a place for them, and they make people happy who, perhaps, never had roses before. Next year, some sorts may be back in the standard or even in the Diamond List, so you may be sure of getting good varieties, and the place to get the most roses for the money is in the Star List. They are, without exception, the cheapest roses ever offered, and are largely bought by all classes of planters. The Star List comprises 70 ever-blooming, 20 Hybrid Perpetuals, 8 Hybrid Teas, and 2 Hardy Climbers; 100 Star List Roses in all. Prices are so low that Star List Roses are in great demand. We expect this Extra Run on them this year, but our stock is so large there is no danger of running out.

Price.—Star List Roses, purchaser's selection, all labeled, 10 cents each; 8 for 50 cents; 12 for $1; 24 for $2; 36 for $3; 50 for $4; $8 per hundred. By mail or express. See page 9.

Note.—When ordering from this list, please say, FROM STAR LIST.

We acknowledge, very gratefully, the receipt of many thousands of complimentary letters, speaking in the highest terms of the excellence of our plants, and the satisfaction experienced in dealing with us; and have only room to reply that we shall in the future, as in the past, earnestly strive to deserve the confidence and regard of all who favor us with their orders. Our Rose business is much the largest in this country, and the increasing demand for Hardy Shrubbery, Climbing Vines, and New and Rare Flower Seeds requires unremitting attention, and has the constant personal supervision of the proprietors.
TWO YEAR ROSES for IMMEDIATE EFFECT.

We recommend our ordinary size Roses for general planting, and know that they give excellent satisfaction in every way, but as some of our friends want LARGER ROSES FOR IMMEDIATE EFFECT, we now offer a fine stock of

TWO YEAR ROSES 12 TO 16 INCHES HIGH, FROM 4 AND 5-INCH POTS.

These plants, being older and much larger than the ordinary size, bloom quickly and make a fine appearance at once. Those sent out the last two seasons gave great satisfaction.

PARTICULAR NOTICE.—AS WE DO NOT HAVE ALL VARIETIES IN TWO YEAR SIZE, PURCHASERS WILL PLEASE SELECT AS FAR AS POSSIBLE FROM THE LISTS GIVEN BELOW, WHICH ARE USUALLY IN STOCK. We have many other sorts, however, and always endeavor to fill orders exactly as given; but when impossible to furnish all the varieties asked for, we request permission to put in other sorts of same color and equal value—marking on the labels the changes made, if any—without taking time to correspond about it. We assure our friends that when the selection is left partly to us we can frequently send better plants and more satisfactory varieties than they would be likely to select for themselves, and we guarantee satisfaction in every case. These varieties are all described in their proper place in the Guide.

*Helianthus Multiflora Plena.*

We present a fine illustration of this handsome plant which is now attracting great attention. **THERE IS NOTHING EQUAL TO IT AMONG YELLOW FLOWERS.** It grows from three to four feet high, is of bushy and compact habit, and is covered from top to bottom with splendid GOLDFLON YELLOW FLOWERS, the **SIZE OF DAHLIAS,** and **PERFECTLY DOUBLE.** They have strong woody stems, and are of such good substance that they keep a long time after being cut, and are greatly admired. It blooms in July and August (the first season) and is altogether one of the most striking and handsome flowers of its season. It is moderately hard, but should have a light covering of leaves or straw during Winter in cold localities. It ranks with hardy shrubs, and is undoubtedly one of the most showy and handsome plants recently introduced. 25 cents; 2 for 40 cents; $2 per doz.

Special Offer.—One Splendid Dahlia Sunflower and one HYDRANGEA GRANDIFLORA (page 49), the 2 for 50 cents; or 1 Sunflower, 1 Hydrangea Grandiflora and 6 Star List Roses (page 42), purchaser's selection, 8 in all, for $1.
Fine English Clematis.

The Clematis has advanced rapidly in public favor and is justly considered one of the most beautiful climbers grown. The Jackmanii and other varieties of this class produce their beautiful flowers in such profusion that the whole plant appears a sheet of bloom, as shown in the engraving. The Clematis should have good, rich ground, and if partially shaded so much the better. They are entirely hardy, but a light covering of leaves or straw during Winter is desirable until fully established. Our Clematis are all on THEIR OWN ROOTS; therefore they cannot throw up wild shoots, as grafted plants are very apt to do. We send fine, strong, well-rooted plants, certain to grow and bloom.

Jackmanni Superba.—One of the most magnificent Clematis ever grown; splendid violet purple flowers, four to five inches in diameter. 50 cents.

Lanuginosa Nivea.—Lovely pearl white; extra large flowers; one of the finest sorts. 50 cents.

Modesta.—Beautiful cerulean blue; splendid large flowers. 50 cents.

Lord Neville.—Superb flowers, extra large size; dark rich velvety purple, with azure markings. 50 cts.

Lanuginosa Candida.—Beautiful silvery white, delicately tinted with pale lilac and blush. 50 cents.

Mad. Van Houtte.—Elegant large flowers; white, faintly tinged with mauve and pale blue. 50 cts.

Jeanne d'Arc.—Beautiful violet-gray flowers, with large brown anthers; extra fine. 50 cents.

Star of India.—Reddish violet-purple, plum-colored markings; very fine, large flowers. 50 cents.

Set of 9 fine English Clematis named above for $4; $5 per doz.

Clematis Crispa.—New and fine; a low, robust grower bearing thick flowers, beautifully colored pale blue and white and deliciously sweet; quite hardy and a constant bloomer. 35 cents, 3 for $1.

Clematis Viticella (Blue Bells).—A strong, hard grower, with pretty glossy green leaves and a profusion of dark blue and purple flowers; excellent for trellis, etc. 20 cents, 5 for $1.

Clematis Flammula.—An elegant, twining vine, particularly valuable for trellis, verandas and pillars; flowers are star-shaped, pure white and very fragrant. 20 cents, 5 for $1.

New Coral Clematis (Clematis Cocinea).—A new and beautiful variety, considered a great acquisition; flowers rich coral scarlet, tulip-shaped, and borne in great profusion from early Spring till Fall. 35 cents, 3 for $1. See illustration.

Clematis Virginiana (Virginia Clematis).—A hardy, rapid-growing vine, desirable for covering unsightly objects quickly and effectually; pure white, fragrant flowers, very thick, dark-green foliage and highly curious and ornamental seed vessels. 20 cents, 5 for $1.

Complete Set of 14 Clematis for $5.25.
NEW AND RARE HARDY ORNAMENTAL FLOWERING SHRUBS.

HYDRANGEA GRANDIFLORA.

We offer HYDRANGEA GRANDIFLORA IN THREE DIFFERENT SIZES, described below. They are strong plants and will all bloom the present season. The extra strong three year plants can only be sent by Express, and cannot be furnished after July 1st. Prices as follows:

Strong One Year Plants.—By Mail or Express, 25 cents; 2 for 50 cents; $2.50 per doz.

Strong Two Year Plants.—Cut back ready for planting, by Mail or Express, 50 cents; 2 for $1; $5 per doz.

Extra Strong Three Year Plants.—Cut back ready for planting, by EXPRESS only, $1 each; 2 for $1.75; $9 per doz.

Note.—This Hydrangea still retains its position as the finest hardy flowering Shrub in cultivation; the demand for it constantly increases as its merits become better known.

Hydrangea Grandiflora.

Description.—Hydrangea Grandiflora—See illustration above. A new, very striking and elegant Hardy Flowering Shrub, suitable for Lawns, recently introduced from Japan; the flowers are pure white, afterwards changing to pink, and are borne in immense pyramidal trusses more than a foot long and nearly as much in diameter. It blooms in Midsummer and remains in bloom two or three months. Creates a great sensation wherever seen; is scarce and difficult to obtain. The plant is of bushy and compact growth, attains a height of 3 to 4 feet, and is perfectly hardy in all parts of the country; needs no protection of any kind.

Treatment.—The bush should be cut back every Spring at least one-half of last season’s growth, dug around and well manured. The flowers are borne on the new or young wood, and are largest and finest when the plant is making a strong, vigorous growth.
50

THE DINGEE & CONARD COMPANY’S

Hydrangea Otaksa.—A magnificent flowering shrub, with immense trusses of flowers, frequently twelve inches across; color, bright rosy pink, contrasting finely with other sorts. The plant is of low bushy growth, and should have a light covering of straw, leaves or evergreen branches during Winter. 35 cents, 3 for $1; $3.50 per doz.

Weigela Hortensis Nevia (White Flowered Weigela).—An elegant, hardy, ornamental shrub, scarce and difficult to obtain; grows three or four feet high; pretty drooping habit; blooms in Midsummer; flowers pure snowy white, trumpet-shaped and very beautiful. 25 cents; larger size, 40 cents; $2.50 and $4 per doz.

New Althea “Banner.”—A splendid new variety, one of the most beautiful and striking Altheas ever grown; blooms in July and August; flowers extra large and very double; color, pale rose, elegantly striped with rich crimson; very showy and attractive. 25 cents; larger size, 40 cents; $2.50 and $4 per doz.

Chinese White Wisteria.—This magnificent variety was brought from China by Mr. Fortune and is doubtless the finest White Wisteria ever sent out; it is a strong, vigorous grower and entirely hardy; the flowers are pure white and borne in long pendulous clusters in great profusion, deliciously perfumed and exceedingly beautiful. 75 cents.
Japan Rose (Rosa Rugosa).—A new and splendid hardy flowering shrub introduced from Japan; grows four or five feet high; perfectly hardy, has bright, glossy green foliage and large crimson flowers, borne in clusters and followed in the Autumn by brilliant scarlet fruit; very striking and beautiful. 35 cents; larger size, 50 cents; $3.50 and $5 per doz.

Clematis Stans (Japan Erect Clematis).—A new and rare ornamental flowering shrub from Japan. It is of low spreading growth, and blooms profusely in late Fall; flowers are bluish-white, borne on long pendulous spikes and exceedingly sweet. 25 cents; larger size, 40 cents; $2.50 and $4 per doz.

Viburnum Plicatum (Japan Snow-Ball).—Newly introduced and extra fine; scarce and difficult of propagation, but one of the most beautiful and valuable flowering shrubs. It is of erect bushy habit; grows three to four feet high, and is perfectly hardy. It blooms in June; large, globose heads of pure white flowers entirely covering the plant, and presenting a rare and splendid appearance. Price, strong blooming plants, 35 cents; larger size, 50 cents; $3.50 and $5 per doz.

Special Offer.—The set of Nine New and Rare Ornamental Shrubs by Mail or Express for $3. Larger size, by Express only, for $4.

Hardy Ornamental Flowering Shrubs.

Fine Shrubbery is wanted everywhere; it is a LEADING SPECIALTY WITH US. We grow all the best varieties in large quantity and furnish strong, healthy plants, suitable for immediate planting in door-yards, lawns, parks, cemeteries, etc., etc.

We Send by Mail or Express, as directed; by Mail we pay postage, by Express the purchaser pays Express charges; but Express orders get larger plants.

Hardy and Bloom Finely.—These beautiful shrubs bloom finely and are entirely hardy. They thrive in all ordinary situations, need no protection and improve with age. THEY MAKE ELEGANT ORNAMENTAL HEDGES, and are also largely used as screens for walks, back-buildings, etc.

Hedges and Screens.—The varieties most suitable for hedges and screens are marked with a star [9]. When used for this purpose they should be set one foot apart and cut back to uniform height.

Size and Price.—All our Shrubs, whether sent by Mail or Express, are strong, vigorous plants, suitable for planting at once in open ground. The 15-cent size is first-class, but the 20-cent size are larger, and some people prefer them—that is all the difference. Those at 15 cents are, 7 for $1; $1.50 per doz.; $10 per hundred. Those at 20 cents are, 5 for $1; $2 per doz.; $12 per hundred.

*Althea or Rose of Sharon.—This splendid plant is one of the most showy and beautiful flowering shrubs; the flowers are of large size, bell-shaped, very double and full, and of various brilliant and striking colors; they are borne in great profusion in August and September, when other flowers are scarce. The plant is of regular and compact growth, with deep, glossy green leaves; it thrives in all ordinary situations, and is entirely hardy in the Middle States. They make beautiful ORNAMENTAL HEDGES; sure to attract attention wherever seen. We offer six distinct varieties, all very beautiful, namely: DOUBLE PURPLE, DOUBLE STRIPED (red and white), DOUBLE WHITE, DOUBLE ROSE, DOUBLE VIOLET. 15 cents; larger size, 20 cents.
**Althea.—Variegated-Leaved.**—A very beautiful and distinct variety; regular and compact growth; half of each leaf is deep green, and half pure white; large, very double bright pink flowers; very desirable. 15 cents; larger size, 20 cents.

**Berberis.**—Purple-Leaved.—This beautiful shrub is one of the finest on the list; it is of regular, symmetrical form; with rich violet purple leaves, a very distinct and striking color, and pretty yellow flowers; it is very attractive and makes lovely ornamental hedges. 15 cents; larger size, 20 cents.

**Calycanthus (Florida) Sweet-Scented Shrub.**—Flowers purple; very double and deliciously fragrant; blooms at intervals during the season; old and much esteemed. 15 cents; larger size, 20 cents.

**Forsythia Suspensa.**—A beautiful hardy shrub of weeping or pendulous habit; glossy deep green leaves, and bright yellow flowers; blooms early in Spring. 15 cents; larger size, 20 cents.

**Forsythia Golden Bell.**—Height three to four feet; beautiful bright yellow flowers; blooms profusely very early in Spring; splendid. 15 cents; larger size, 20 cents.

**Japan Euonymus.**—In three varieties, Silver-Leaved, Variegated Trailing and Large-Leaved. These are pretty, low-growing evergreen shrubs, with thick glossy green leaves; very desirable for borders, rock-work, vases, etc.; they do best in moist, shady places. 15 cents; larger size, 20 cents.

**Deutzia Gracilis.**—Height two to three feet; regular and compact form; very bushy; a charming shrub, introduced from Japan by Dr. Siebold; flowers pure white; blooms profusely; very hardy and desirable. 15 cents; larger size, 20 cents.

**Deutzia Crenata.**—Height four feet; similar growth and habit to above; flowers very double; pure white, beautifully tinged with rose; hardy and fine. 15 cents; larger size, 20 cents.
Deutzia, Pride of Rochester.—This elegant variety resembles Deutzia Crenata—except that the flowers are pure white; the back of petals only being slightly tinged with rose; it excels all other sorts in size of flowers and profusion of bloom. 15 cents; larger size, 20 cents.

Kerria Japonica (Japan Chorchorus).—A pretty, slender, branched shrub, with bright green bark and large, very double, globular flowers; deep golden yellow, very distinct and desirable, but not much known; blooms almost constantly. 15 cents; larger size, 20 cents.

*Deutzia Fortunii.—Height two to three feet; one of the most beautiful and profuse flowering varieties; pure white, perfectly hardy. 15 cents; larger size, 20 cents.

Spirea Reevesii.—Beautiful pure white flowers, very double, like small Roses; hardy. 15 cents; larger size, 20 cents.

Spirea Thunbergii.—One of the finest Spireas, noted for its compact, regular growth, and pretty fern-like leaves; makes a head almost as round as a ball; flowers are white and borne in large clusters. 15 cents; larger size, 20 cents.

Tamarix Africana (African Tamerix).—A graceful, erect growing shrub, having pretty pink flowers and leaves like an evergreen, entirely different from all other shrubs, and very beautiful. 15 cents; larger size, 20 cents.

Weigela, Variegated-Leaved.
Weigela Candida.—New and fine; pure snow white flowers, borne in great profusion; good Autumn bloomer. 15 cents; larger size, 20 cents.

Weigela Rosea.—This is one of the most charming shrubs in cultivation; it cannot be too highly recommended; the flowers are large and of a deep rosy color; they are borne in such profusion that the whole plant appears a mass of lovely bloom. See illustration, page 53. 15 cents; larger size, 20 cents.

*Weigela Variegated-Leaved.—Deep green leaves, with a broad margin of pure white around each; very striking and pretty; rose-colored flowers, same as above, but smaller growth. See illustration. 15 cents; larger size, 20 cents.

Weigela Lavallee.—New and fine; deep red flowers, entirely unlike other Weigelas; very distinct and beautiful. 15 cents; larger size, 20 cents.

Weigela Rubra.—Fine large flowers; produced in great profusion; color, deep ruddy crimson; very rich and beautiful. 15 cents; larger size, 20 cents.

White Fringe.—A small ornamental tree bearing pure white flowers, resembling elegant fringe. 15 cents; larger size, 20 cents.

Yucca Filamentosa.—A low-growing, hardy evergreen plant, with long, narrow leaves, very distinct and almost tropical in its appearance. The flower stalk is from two to four feet high, and rises from the centre. It bears a profusion of creamy white, bell-shaped flowers; very beautiful. We have prepared an illustration of this fine plant, to which we beg to call attention. 15 cents; larger size, 20 cents.

Purple Fringe (Rhus Cotinus).—A beautiful and very striking shrub, covered in Midsummer with fine hair-like flowers, causing the whole plant to appear as if wrapped in a cloud of purple mist. 15 cents; larger size, 20 cents.

Viburnum Snow Ball.—We want to call particular attention to this fine shrub; it is a strong, hardy grower, covered when in bloom with large balls of pure white flowers, really resembling balls of snow, and very pleasant for snow-balling purposes. See illustration. 15 cents larger size, 20 cents.

New White Hydrangea—Thomas Hogg. 35 cents.

New White Hydrangea Thomas Hogg.—A magnificent shrub, introduced from Japan. Produces in July immense clusters of pure white flowers, very showy and striking; should be kept in cellar over Winter and planted out early in Spring. 35 cents; 3 for 75 cents; 12 for $3.

A Beautiful Fern.

Fern—Pteris Serrulata.—This beautiful Fern is a handsome, vigorous grower, with very pretty dark green foliage. It is suitable for house culture, vases, baskets and rock-work; not hardy. Price 15 cents; $1.50 per doz.

Beautiful Hardy Climbing Vines.

Hardy Climbing Vines are among the most desirable ornamental plants; no others produce more beautiful effects, whether clambering over the veranda or clinging fast to house-walls, they clothe all with a mantle of beauty, and give a pleasant, restful look to the humblest home.

They are used profusely in decorating the finest suburban residences, parks, cemeteries, and churches, the country over. We note the purpose for which each variety is most suitable, and recommend them to all lovers of beautiful plants.

Climbing Vines are also very useful for concealing unsightly objects, buildings, walls, fences, etc.; and old trees and stumps are frequently more beautiful when covered with a luxuriant drapery of climbing vines, than they were in their growing condition.

Ampelopsis Quinquefolia, American Ivy or Virginia Creeper.—A strong, rapid grower, clinging firmly to stone, brick, or wooden walls, without support; suitable also for verandas, porches, trunks of trees, etc.; large, dark green foliage, changing in Autumn to bright crimson; much esteemed. 15 cents; larger size, 20 cents.

Akebia Quinata.—Japan Akebia. A new twining climber, suitable for pillar or trellis; handsome and distinct foliage, and chocolate colored, fragrant flowers; very desirable. 15 cents; larger size, 20 cents.

Ampelopsis Veitchii—Boston Ivy.—A new and very beautiful hardy climbing vine, now extensively used on the finest suburban residences, churches, etc., also in parks, lawns and cemeteries. It is a hardy and quite rapid grower; clings fast to stone, brick or wooden walls without support; droops with inimitable grace from porches, balconies and cornices, covering all in Summer with a mantle of lovely green foliage which changes, as Autumn approaches, to brilliant crimson; its effect is charming and picturesque in the highest degree. 15 cents; larger size, 20 cents. See illustration, page 56.

Bignonia Grandiflora—Trumpet Creeper.—A hardy, fast grower, suitable for covering dead walls, back buildings, fences, etc.; produces in August large, orange red, trumpet-shaped flowers in clusters, as shown in illustration. 15 cents; larger size, 20 cents.

Clematis.—We offer the finest varieties of this most popular climber; page 48.
Climbing Roses.—Climbing Roses are very beautiful and much esteemed. For description and prices, see pages 16 and 17.

Honeysuckles.—For real home vines, to be near you, climbing over your windows and doorways, there is nothing prettier than fine, sweet-scented Honeysuckles; the foliage is pretty, neat and clean, the flowers almost continuous and their fragrance delicious. The varieties described below are the very best. Will send the set of 7 for $1.00; larger size, $1.50.

We ask particular attention to Ampelopsis Veitchii, or Boston Ivy. It clings firmly to all kinds of walls. See description, page 55.

Chinese Sweet-Scented Honeysuckle.—A fine variety, of vigorous growth; white and yellow flowers; a very fragrant and constant bloomer. 15 cents; larger size, 20 cents.

Golden-Leaved Honeysuckle.—An elegant and very desirable variety of moderate growth; leaves beautifully veined and netted with clear yellow, so that the prevailing color of the foliage is bright yellow; flowers yellow and fragrant; admirable for pillar and trellis work. See illustration. 15 cents; larger size, 20 cents.

Halliana Honeysuckle.—A new variety lately introduced from Japan and considered a great acquisition; it is evergreen and a constant bloomer; flowers pure white, changing to yellow; very fragrant; good for trellis or pillar. 15 cents; larger size 20 cts.
Red Coral Honeysuckle.—A hardy, rapid grower, suitable for rock-work, etc.; bright red, trumpet-shaped flowers, 15 cents; larger size, 20 cents.

Japan Sweet-Scented Honeysuckle.—Beautiful large flowers; pale yellow and white; exquisitely sweet; a constant and profuse bloomer. 15 cents; larger size, 20 cents.

Honeysuckle Hedges.—Some of our friends lately conceived the idea of planting Honeysuckles along division fences, and it is wonderful what pretty hedges they make. Iron or wire fences are the best, but almost any kind is soon covered with a mantle of living green, making a very pretty and cheap border for lawns, drives, parks, cemeteries, etc. Other climbing vines will answer the same purpose, but the sweet-scented Honeysuckles are both fragrant and beautiful. They should be planted two feet apart. Price, strong plants, by Express, $1.50 per doz.; $12 per hundred.

English Ivy.—A splendid evergreen climber, with dark glossy green leaves; clings firmly to stone or brick walls, without trellis or support, covering them closely with its beautiful foliage; very desirable. 15 cents; larger size, 20 cents.

Variegated-Leaved Ivy.—Similar to above, but a smaller growing plant; leaves variegated with white; best for rock-work, vases and house culture. 15 cents; larger size, 20 cents.

Virginia Silk Vine (Periploca gracca).—A highly ornamental, rapid growing, twining climber, suitable for trees and wild gardens; pretty, pale blue flowers. 15 cents; larger size, 20 cents.

Wisteria, Chinese.—A hardy, strong growing, twining vine of large growth, producing in Midsummer large clusters of beautiful pale blue fragrant flowers; much used for high verandas, balconies, etc. 30 cents; $3 per doz.

Wisteria Magnifica.—Similar to above, but darker blue flowers; profuse bloomer; splendid. The Wisterias are recommended for high verandas, porches, balconies, second-floor fronts, etc., as the very finest plants for the purpose. 30 cents; $3 per doz.

New White Wisteria.—A rare and elegant variety, contrasting finely with other sorts. Flowers are borne in long pendulous clusters, pure snowy white and deliciously sweet. 50 cents; $4 per doz.

Wisteria Frutescens.—An elegant climbing vine, hardy and vigorous, and blooms much earlier than the other varieties; pretty violet-purple flowers, borne in large clusters and very fragrant. 20 cents; $2 per doz.

The set of four beautiful Wisterias for $1.25.

Complete Set of 18 Fine Climbing Vines named above for $3.25; larger size, $4.25.
Our Splendid Seedling Gladiolus.

OUR SPLENDID SEEDLING GLADIOlus have become almost as famous as our Roses; their wonderful beauty has attracted great attention, and they are extensively planted in every State and Territory in the Union. These magnificent Gladiolus are grown from the Finest Selected French Hybrids, and are really the Finest Strains of Gladiolus ever produced; they are fully equal in size of flower and beauty of coloring to the highest priced Named Sorts, costing many times as much.

They are Easy to Grow and Sure to Bloom.—Plant (after danger of freezing is past) in ordinary soil, 3 inches deep and 6 or 8 inches apart, and they will soon throw up tall spikes of beautiful flowers of the most brilliant and gorgeous colors, crimson, scarlet, purple, orange, white, etc., with all imaginable shades and markings. They are superbly beautiful and attract more attention than any other flower of their season. By planting at two or three different times, you can have a constant succession of bloom from July to November. Eulalia Japonica Zebrina.

This beautiful ornamental grass is one of the finest plants for lawns. It grows four or five feet high, is perfectly hardy, needs no protection and improves with age. The leaves are deep green, STRIPED CROSSWISE WITH BROAD BARS OF PURE WHITE, as shown in the engraving. Our plants are propagated from the root, and therefore more valuable than cheap seedlings which do not come true.

Price, strong plants, 30 cents; 2 for 50 cents; $3 per doz.

Eulalia Japonica Variegata.—An older variety than Zebrina, but equally valuable; LEAVES STRIPED LENGTHWISE; FINE CREAMY WHITE AND BRIGHT GREEN. The plumes of both the Eulalias make pretty parlor ornaments. 30 cents; 2 for 50 cents; $3 per doz.

Erianthus Ravenna.—A perfectly hardy ORNAMENTAL GRASS, throwing up splendid flower stalks, eight to ten feet high, the first season. It bears beautiful feather-like plumes, highly valued for parlor ornaments; it is a striking and handsome lawn plant. 20 cents; $2 per doz.

Special Offer.—We will send the two Eulalias and one Erianthus—3 for 65 cents.
NEW GUIDE TO ROSE CULTURE.

Excelsior Pearl Tuberose.

A Splendid New Variety, the Finest Pearl; grows about 18 inches high, blooms very ever introduced; greatly superior to the Common early, matures perfectly; flowers pure white, large size, very double and intensely sweet. We send splendid large, well-ripened bulbs, the finest ever grown, all sure to bloom; gave immense satisfaction last year. Be sure to give them a trial; CAN SEND HALF AND QUARTER DOZENS WHEN WANTED.

NOTICE PRICES.—Extra Finest Large Flowering Bulbs 10 cents each; 3 for 25 cents; 6 for 40 cents; 75 cents per doz.; $6 per hundred.

LARGEST SIZE SELECTED.—12 cents each; 3 for 33 cents; 6 for 65 cents; $1.25 per dozen.

Double Italian Tuberose.—The best tall growing variety. Price, extra fine, large flowering bulbs, 10 cents each; 3 for 25 cents; 6 for 40 cents; 75 cents per dozen.

Orange-Flowered Tuberose.—This is a very beautiful Tuberose, with elegant single flowers; it is considered more hardy than the Double Varieties and more certain to bloom; it also blooms much earlier in the season. The flowers are pure snowy white, and very sweet, rivaling orange blossoms. Very desirable for bouquet work. Strong blooming bulbs, 15 cents; 3 for 40 cents; 6 for 75 cents; $1.50 per doz.

New Variegated-Leaved Tuberose.—This handsome new variety is one of the prettiest novelties of the season; its deep green leaves are finely edged and bordered with broad stripes of creamy white; the flowers are star-shaped, very large and of exquisite fragrance. It blooms several weeks earlier than other Tuberoses, which adds greatly to its value, and, if kept in cellar over Winter, the bulbs will continue to bloom year after year; very handsome and valuable. 20 cents; 3 for 50 cents; 6 for $1.00; $2 per doz. Set of 4 Varieties for 50 cents.

DIRECTIONS.—Tuberoses will not bear much cold; do not plant till ground is warm. They may be started in the house in a warm place, but care must be taken that they get no check in setting out. Plant two or three inches deep and six to eight inches apart in the row in good warm rich ground, free from shade. If danger of frost before the flowers are done in the Fall, lift carefully with the earth on the roots and plant in pots or boxes in a warm, light place, and they will continue to bloom for several weeks.

Tuberose flowers are grown largely for sale and are extensively used in all kinds of floral decoration, and particularly in Bridal and Funeral work. They are always in demand at good prices.

TIGREDIA.

This magnificent Summer flowering bulb should be planted when danger of frost is past. They will be in bloom in six weeks, and continue until late in Autumn. They can be grown in any situation, and require little care. The handsome tigered flowers make a fine show.

Tigredia Grandiflora Alba.—The flowers are pearly white, marked at base of petals brownish crimson. This variety has attracted great attention. 20 cts.; 3 for 50 cts.; $1.50 per doz.

Tigredia Grandiflora.—Large flowers; bright crimson, spotted yellow centre. 15 cts.; 2 for 25 cts.; $1.25 per doz.

Tigredia Conchiflora.—Splendid yellow flowers tigered with crimson. 10 cts.; 6 for 50 cts.; $1 per doz.

Set of 3 Tigredias, 30 cts.

MADEIRA VINE.

A rapid growing, graceful vine, with smooth, glossy leaves; bears racemes of fragrant white flowers; desirable for hanging baskets, trellises, rock-work, etc. 10 cts.; 3 for 25 cts.; 75 cts. per doz.

ZEPHYRANTHUS.

These belong to the Amaryllis class, and can be planted in open ground or pots. The beautiful lily-like flowers are borne profusely all Summer.

Atamasco Rose.—A beautiful variety; upright flowers; petals broad and spreading; color, lovely rosy pink. 20 cts.; 3 for 50 cts.; $1.50 per doz.

Atamasco, White.—A lovely color, at first very pale pink, changing to white; 15 cts.; 2 for 25 cts.; $1.25 per doz.

Amaryllis Treatea.—Of unusual merit and easy growth; the beautiful flowers are pure white and sweet scented. 15 cts.; 2 for 25 cts.; $1 per doz.

MILLA BIFLORA (Floating Star).

This charming novelty of recent introduction blooms all Summer. The flowers are of singular beauty, 3 inches in diameter and pure waxy white; they are borne in pairs on slender rush-like stems, 10 to 12 inches high, and, as they are gently stirred by the passing breeze, resemble one of the Floating Stars. The flowers are of great substance, keeping for days when cut and placed in water. 15 cts.; 2 for 25 cts.; $1.25 per doz.

HYACINTHUS CANDICANS.

This new species of Hyacinth blooms from August to September, growing from 18 in. to 2 ft. high, with long spikes of pure white flowers. The plants have a tropical appearance, and a bed of a dozen or more bulbs will make a magnificent display. The bulbs are perfectly hardy and will flourish in any situation, and attract great attention. Price of large bulbs, sure to bloom the present season. 20 cts.; 3 for 50 cts.; $2 per doz.
JAPAN LILIES.

Japan Lilies are always greatly admired; their large size, lovely form and charming colors, place them among the most beautiful flowers. Lily bulbs should be planted quite deep, say not less than six to eight inches. Unlike most other flowers, they do not need strong ground or manure, but thrive best in a partially shaded situation, sheltered by shrubbery and other plants. They are entirely hardy, and need no protection in Winter, though in exposed situations it is advisable to give a slight covering of leaves or coarse litter when convenient. Lilies increase in size and beauty with age, and should be left undisturbed from year to year. When the best effect is desired, we recommend planting one or two dozen of a kind, rather than one or two each of several kinds; they are very desirable and always give satisfaction. They can be planted Spring or Fall, as preferred.

Auratum.—The magnificent golden-banded Lily of Japan, considered the Queen of Lilies. The stalk is from two to four feet high, crowned with splendid white-and-gold Lilies, each from four to six inches in diameter. Fine large bulbs, that will bloom the present season. We offer Auratum Bulbs in 3 Sizes. All are fine strong Bulbs, sure to bloom the present season, the only difference is the size.

THE BERMUDA EASTER LILY.

This grand Lily was brought from Bermuda, and has attracted a great deal of attention. It was at first thought only suitable for Winter forcing, but has been found almost equally valuable for general planting, and is now in great demand. It is a VERY LARGE and remarkably free flowering variety of Longiflorum. When it does well, each bulb will produce from 6 to 12 immense flowers. The flowers are VERY LARGE, from 6 to 8 inches long; pure waxy white and deliciously fragrant. It is probably hardy south of Washington, and north, if covered thoroughly, eight or ten inches deep, with leaves or straw. Price, 40 cts.; $4.50 per doz.

THE SPOTTED CALLA LILY.

The leaves of this beautiful Calla are deep green, with distinct white spots, which give the plants a striking appearance. The flowers are pure white with a black centre, and are very beautiful. They bloom freely and grow easily in any soil. They also make splendid pot-plants. We send large, solid bulbs that will bloom soon. 35 cts.; 3 for $1; $4 per doz.

APIOS TUBEROSA.

A valuable climbing vine resembling the Wisteria in foliage, and having clusters of rich purple flowers, delightfully fragrant. The bulbs are perfectly hardy and will stand the Winter; they bloom freely the first Summer. 10 cts.; 3 for 25 cts.; $1 per doz.
Miscellaneous Plants.

New Dwarf Pomegranate.—This pretty flowering shrub originated in Louisville, Ky., where it is nearly hardy. Its flowers are a brilliant orange scarlet—a very rare and striking color—and are borne in profusion, even while the plant is quite small. It is considered a great acquisition. 25 cents; $2.50 per doz.

Tritoma Uvaria (Blazing Torch).—A splendid plant, with flower stalks three feet high, and large spikes of brilliant flame-colored crimson and yellow flowers, bearing a striking resemblance to Blazing Torches; very striking and beautiful; blooms in August and September, and attracts a great deal of attention. Not hard; store in cellar over Winter. See illustration. 20 cents; $2 per doz.

Caladium Esculentum.—A splendid ornamental foliage plant suitable for lawn decoration; can be planted in border or grown in large pots or tubs; likes warmth and moisture. When full size it stands from four to six feet high. The leaves are immense, often measuring four feet in length by two and a half in breadth; very smooth, bright green, beautifully veined with dark green; should not be planted in Spring till ground is warm. When killed down by frost in Fall take up the root and store in cellar, secure from freezing. As the root gets older it increases in size and strength, and produces larger leaves. 20 cents each; 6 for $1; $2 per doz.

THE SPLENDID NEW CHRYSANTHEMUMS.

Price.—15 cts. each; $1.50 per doz.; set of 80 varieties for $10.

The Splendid New Chrysanthemums are esteemed among the most showy and handsome Autumn flowers. Their profuse bloom and brilliant colors, continuing right to the edge of Winter, long after all other flowers have disappeared, has made them great favorites, and they are consequently in very large demand. They have lately been wonderfully improved, and are usually classified as Japanese, Chinese, Pompon, etc., but in the recent rapid increase of varieties these classes have so run into each other that they have become practically indistinguishable, and it seems no longer desirable to classify them under separate heads. We describe the color and general appearance of the flower, so that purchasers can select those they prefer. AS USUAL, WHEN THE SELECTION IS LEFT TO US, WE WILL SEND Sorts We KNOW WILL PLEASE. The varieties named below are among the finest ever offered.

Fine Ever-Blooming Carnation Pinks.

The Ever-Blooming or Monthly Carnation Pinks are highly valued by all lovers of beautiful flowers. They bloom continuously; the flowers are large and full, of bright striking colors and sweet clove fragrance. The varieties named below are among the best ever grown for culture in open ground.

Culture.—Carnations should be planted in open ground after danger of severe frost is past. They bloom all Summer, and, if potted and removed to the house before cold weather, they will bloom finely during Winter and be ready to plant out again in the Spring. They will bear considerable frost, but are not entirely Hardy.

For Winter Flowering.—The plants should be taken up just before the first frost; lift with plenty of earth, so as to disturb the roots as little as possible, and plant in large pots or boxes; water thoroughly at first and sparingly afterwards. They require plenty of light and air, but only moderate heat. Vast numbers of Carnations are grown in the Winter for bouquets and floral decoration.

Crimson King.—A splendid variety; rich velvety crimson, elegantly shaded; extra large flowers; very full, perfect form; exceedingly sweet. 20 cents; $2 per doz.

President de Graw.—Pure snow-white; very free bloomer; exceed-

FLOWER SEEDS a SPECIALTY.

The finest flower seeds are now leading specialty with us, and we wish to thank our friends and customers for their appreciation of our efforts in this department. We therefore take pleasure in presenting our list for this season. As will be seen, we offer a splendid collection of all the popular flowers that are easily grown from seeds, and as the matter has had careful personal attention throughout, we know that all the flower seeds we offer are fresh, reliable, and of the finest stock and strains to be had in this country or Europe.

All our flower seeds are carefully tested, and every precaution taken to send out none but seeds of the best vitality. The national reputation for reliability now accorded our roses and other plants, is asked for our carefully selected flower seeds.

To still further assist our friends in the easy and delightful task of growing choice and beautiful flowers from seeds, we have printed full cultural directions on each packet.

Please note.—All our flower seeds are put up in liberal-sized packets, and prices made low as possible for seeds of the excellent quality we send out.

Please notice.—We do not have vegetable or farm seeds of any kind, the undivided attention of this Department being devoted to supplying our specially selected flower seeds only.

The Dingee & Conard Co.'s Novelties and Specialties in Flower Seeds.

We can unreservedly recommend the following complete list of novelties and specialties, all of which have been given careful trial, and are believed to be valuable acquisitions. We wish to call particular attention to our New White CANDYTUFT "SNOW QUEEN," also our superb collection of Imperial German Pansies, which are an established success.

PREMIUMS.—Besides offering our flower seeds at very low prices, we give the following liberal premiums as an additional inducement to purchasers who order in quantity, or form Clubs for Flower Seeds. Customers ordering flower seeds to value of $1, can select seeds in packets to value of $1.25; orders amounting to $2, select packets for $2.40; orders amounting to $3, select packets for $3.60, etc. We give 20 cents worth of seeds extra for each one dollar sent us for flower seeds.

NEW DWARF PEONY PERFECTION ASTERS.

This distinct race of asters was offered last season for the first time and gave great satisfaction. The plants do not grow over twelve inches high and are of neat compact habit, blooming profusely; the flowers are very large, of fine form, perfectly double, and petals beautifully incurved; the colors are strikingly rich and brilliant. We strongly recommend these asters particularly valuable for bedding and edging, for which purpose we strongly recommend the separate colors named below.

Light Blue, nearly sky-blue.

Shining Dark Scarlet, a new color in Asters.

Pure White, chaste and beautiful.

Black Blue, very dark and attractive.

Black, Blue and White, makes a striking contrast.

Rose, a dainty and pleasing color.

Finest Mixed, all the above beautiful colors.

Price of each variety, 15 cts. per pkt.; 2 pkts. for 25 cts. Set of 8 varieties, 75 cts.

SPLENDID NEW LARGE FLOWERING PETUNIAS (Grandiflora Superbissima).

The five Petunias described below are entirely new varieties of the Large Flowering Superbissima Section. They have been thoroughly tested, and we strongly recommend them as New Petunias of unusual beauty. The varieties offered below will come true, as the seed of each has been selected with great care.

Red Star.—This new variety which we illustrate is the most regularly striped Petunia in cultivation. It is very desirable for bedding, the plants being of compact, bushy habit, blooming profusely. Each flower has a distinct white star on rich purplish red ground. 15 cts. per pkt.; 3 pkts. for 40 cts.

Superbissima.—The enormous flowers of this superb variety are crimson and purple, with beautifully veined throat. 25 cts.

Yellow-Throated (Intus Aurea).—Large sized flowers of faultless form, with yellow throat of great breadth and depth, beautifully veined; a rare variety. 35 cts.

Prince of Wurttemberg.—The flowers of this magnificent variety are of extra large size, often 4 to 6 inches in diameter, a beautiful dark purple color, with handsome, tigered throat. 25 cts.

Princess of Wurttemberg.—Flowers equally as fine and large as the preceding. Color, exquisite rose, with large white throat, beautifully veined. 25 cts.

The Collection of 5 superb new Petunias, $1.

Mignonette Machette—CLEAR RED.—The strain of seed we offer of this variety is pure. The genuine variety here offered is entirely distinct, and while specially adapted to pot culture, flourishes splendidly in the flower beds; the plants of pyramidal growth are dwarf and vigorous, distinguished by thick green leaves. The flower stalks are numerous, with deliciously scented red flowers borne in large spikes. 15 cts. per pkt.; 4 pkts. for 50 cts.
Magnificent Large Flowering New Imperial German Pansies.

Pansies are now one of our most popular flowers, and as there is a friendly rivalry between Pansy lovers to excel each other in growing them to the greatest perfection, we feel satisfied, in the Large-Flowering New Imperial German Pansies, we are offering the best and finest strain of Pansies that have ever been produced. They were originated and brought to their present high state of perfection by a noted German Pansy grower, who has spent many years in their careful selection and cultivation. The plants are of compact habit, with vigorous and healthy foliage. The flowers are extra large and combine great substance with a range of color that is truly beautiful and remarkable. We offer all the best mixtures of these wonderful Pansies, also sixteen separate colors, which will enable our friends to grow them in any combination desired. Full cultural directions on each packet.

The seed we offer is a special saving by the originator.

**NOTE.**—If you wish Handsome Collections of the Best Pansies, we cannot too strongly recommend the three splendid sets named above. The Imperial Collection makes a magnificent display, while the Beauty and Novelty sets are remarkably beautiful combinations.

**Superb New Dahlias from Seed.**

It is not generally known that beautiful Dahlias can be raised from seed, quite as easily as from bulbs or plants, and at less than one-tenth the cost. The seed can be sown in open ground, but it is best to start it in the house or hotbed; if then transplanted to good rich soil in a sunny position they commence to bloom in July, and continue until November. The New Single Dahlias are recommended as being graceful, elegant and very popular. The seed we offer was saved from a special strain and comprises a remarkable range of color. It must not be confounded with the cheap imported seed generally sent out.

**Dahlia, Single.**—Finest mixture. Per pkt. 20 cts.

**Dahlia, Double.**—Finest mixture. Per pkt. 50 cts.; 3 pkts., either or both for 50 cts.; 7 pkts. for $1.
The Wonderful New White Candytuft Snow Queen.

We are justified in regarding this New Candytuft as one of the most beautiful and satisfactory annuals ever introduced. It is an entirely distinct species brought from Spain. The New Snow Queen Candytuft grows rapidly and comes into flower quickly, remaining in full bloom for three months. The above illustration was accurately engraved from a single plant. As will be seen the handsome tufted pure white flowers are borne in such profusion that each plant resembles a mound of snow, or at a little distance would seem a Giant White Flower, the foliage being almost entirely hidden, making this new variety invaluable for ribbon beds, borders, or for bedding alone in masses, while a single plant potted would be strikingly attractive. It is as easily grown as the ordinary Candytuft, requiring the same cultivation. The seed can be sown quite early, and will be in full flower in about two months. The “Snow Queen” will be sold only in packets like the fac simile illustration. If offered in any other packet the seed is not genuine. We make the price as low as possible. 15 cts. per pkt., 2 pts. for 30 cts.

THE GEM COLLECTION OF NOVELTIES.—We will send one pkt. NEW IMPERIAL GERMAN PANSIES, one pkt. NEW SWEET PEAS, and one pkt. of the lovely RED STAR PETUNIA, FOUR PKTS. IN ALL, FOR 50 CENTS.

THREE DISTINCT NEW PANSIES.

Black Prince.—This entirely new and distinct Pansy is now offered for the first time. The flowers are considerably larger than King of the Blacks and of much greater substance. The color, which is a rich glossy black, has a peculiar soft velvety appearance, a new effect in Pansies. The plants are of dwarf compact habit and flower profusely. Very desirable for bedding. Per pkt., 100 seeds, 35 cts.

Pansy, Giant Odier, “Cassillers.”—This is another new variety offered for the first time last season; magnificent large flowers from 3 to 4 inches in diameter; they are surpassingly beautiful, not excelled by any in fine form, large size, rich coloring and endless variety. Per pkt., 100 seeds, 25 cts.

Pansy, Giant Trimardeau.—A new, entirely distinct and remarkably beautiful race, which is greatly admired by all lovers of this popular flower. The plant is of vigorous and compact growth; the flowers well borne up, and each one marked with three large spots; they are of beautiful form, splendid color and immense size; one of the finest strains ever offered. Per pkt., 100 seeds, 25 cts.

Set of three New Pansies named above, 50 cents.

A STRIKINGLY BEAUTIFUL FLOWER BED.—A bed of the handsome Black Prince Pansy, edged with our superb New Pure White Candytuft Snow Queen, would be a charming and novel sight. We offer the two varieties, one packet of each, price 40 cents.

BLACK PRINCE PANSY.
THE MOON FLOWER (Ipomoea Noctiflora).

This beautiful variety of Ipomoea or Evening Glory has not had the attention it deserves. It was brought prominently before the public the past year, and at once became immensely popular. Too much cannot be said in praise of this beautiful novelty. It is a strong-growing vine, easy to cultivate and can be trained on strings or wires to a height of 20 feet or more. The flowers are very large, 4 to 6 inches in diameter, and splendidly formed, some are a beautiful blue, others pure white. The vines are covered nightly, from August to November with hundreds of beautiful Moon-Like flowers, that emit a rich Jessamine odor. 10 cts. per pkt.; 3 pkts. for 25 cts.

NEW GIANT WHITE SPIRAL MIGNONETTE.

We give the introducer's description of this splendid new Mignonette:

This grand Mignonette grows two or three feet high, perfectly erect, and we measured spikes of bloom on our grounds this season which were fifteen inches long. Its color is pure snow white, and the grand spikes of bloom can be seen for a long distance, and being so beautiful in form and color, much unlike anything else in cultivation, it attracts the attention of everybody. Its fragrance is rich and powerful, and it will produce twice as much bloom as any other variety. Seed can be sown in the open ground in April or May, where it will germinate very quickly and grow rapidly, and commence blooming early in June. If planted in pots at any time during the year they will soon bloom, and make most beautiful pot plants, especially in the Winter and Spring. Try it, and you will never cultivate a garden without it. It will far exceed your expectations." Per pkt. 15 cts.; 4 pkts. for 50 cts.
Splendid New Varieties of Sweet Peas

We are pleased to say we have secured seven beautiful NEW VARIETIES of this popular favorite, that will please our most critical friends. They were selected after careful examination, and we know the seed of each variety to be pure. Sweet Peas are of easy cultivation. Plant the seed 4 to 6 inches deep and firm the earth down with the foot. Full cultural directions on each packet.

**Vesuvius** (see illustration).—This is entirely unlike any other Sweet Pea; the upper petals are distinctly spotted on a rosy ground, which shades into purple at the throat; the lower petals are velvety violet with lilac edges. 15 cts. per pkt.

**Adonis.**—This charming new variety is a beautiful rose pink, a new color in Sweet Peas. 15 cts. per pkt.

**Invincible Carmine.**—From the celebrated English grower, Thomas Laxton, Esq., it is a rich brilliant glowing carmine; and is the brightest-colored Sweet Pea known; a group of it is a dazzling sight. 15 cts. per pkt.

**Carmine.**—A beautiful variety and a beautiful name; the flowers of a delicate appearance are milky white, the upper petals a lovely pale pink. 15 cts. per pkt.

**Bronze Prince.**—This is a magnificent variety; large, well-formed flowers borne in great profusion; the upper petals are a rich shining bronzey maroon, the lower ones a deep royal purple color. 15 cts. per pkt.

**Splendid Lilac.**—This is a distinct and lovely shade of color; flowers pretty clear lilac. 15 cts. per pkt.

**Violet Queen.**—Does not grow so large as other kinds; it is a very free bloomer; the flowers ranging from deep mauve to light violet. 15 cts. per pkt.

**New Sweet Peas, Mixed.**—We offer the 7 beautiful varieties named above mixed in proper proportion. This will give all an opportunity to have a splendid display at little cost; put up in extra large pkts. 15 cts. each; 5/2 oz. 30 cts.; oz. 50 cts.; 2 oz. $1.

**COSMOS HYBRIDUS.**

A magnificent race of plants, which often grow 5 feet in height, and are literally covered with showy flowers, resembling Dahlias. The flowers of the carefully selected Hybrids we offer, are from 1 to 2 inches in diameter, and range in color through all shades of rose, purple, flesh and pure white. The plants are of easy cultivation and bloom quite late in Fall. 15 cts. per pkt.; 2 pkts. for 25 cts.

**NEW DOUBLE DAISY LONGFELLOW.**

This novelty is undoubtedly the finest Double Daisy ever introduced, that comes true from seed. The handsome dark rose-colored flowers are unusually double and borne in great profusion, closely resembling the well known Double Daisy Prince of Wales, which does not seed; as will be noticed in the illustration, the flowers are borne on strong stems, making them valuable for bouquets. Plants can be raised from Spring-sown seed, and will bloom in a short time.

**The Seed we offer is a special strain.** 15 cts. per pkt.; 4 pkts. for 50 cts.

**RICINUS GIBSONIA COCCINEUS.**

This New Castor Bean is now offered for the first time. It is most suitable for lawn, making a magnificent display. The plants grow from 12 to 14 feet the first season; the stalks and leaves are a metallic bronze, sometimes changing to fiery red. The plant produces large bunches of burning crimson-colored fruit. We feel sure the grand tropical appearance of this New Ricinus will make a sensation. It is of rapid growth, requiring little care. 20 cts. per pkt.
NEW GIANT VERBENA (Hybrida Grandiflora).

This New Giant Strain is absolutely the largest flowering Verbena that can be grown from seed. As will be seen by the engraving, the trusses of flowers are of enormous size and symmetrical appearance, each individual floret being perfectly formed. We offer a splendid mixture of seeds, embracing all beautiful colors, shades and markings. The seed should be started in boxes or hot-beds, and plants set out when three or four inches high; you can then have new Verbenas at a trifling cost that will give you as large and perfect flowers as expensive Verbena plants. 30 cts. per pkt.; 2 pkts. for 50 cts.; 4 pkts. for $1.

NEW CHRYSANTHEMUMS.

In recommending our new Chrysanthemum seed to our many amateur patrons, who delight in raising new varieties, we beg to assure them it was saved especially for us by a Chrysanthemum grower who has taken the lead in this country, and many of the collections seeded were recent importations from Japan and never before offered. We offer them in three classes, named below:

* Double Japanese, pkt. 50 cts.
* Double Chinese, pkt. 50 cts.
* Double Pomponé, pkt. 50 cts.

The set of 3 pkts. for $1.25.

NEW SWEET ALYSSUM LITTLE GEM.

A new and exceedingly pretty variety of Sweet Alyssum, that gave great satisfaction last year. It is a distinct variety, the plants are of compact spreading growth, attaining a height of only 3 or 4 inches, but a single plant will cover a space of 12 to 14 inches in diameter. They bloom most profusely in fragrant spikes of pure white flowers. 10 cts. per pkt.; 3 pkts. for 25 cts.

GODETIA SPOTTED CARPET.

The Spotted Carpet, or Bijou Godetia, is a charming new dwarf variety. The flowers are pure snowy white, with a crimson rose spot at the base of each petal. The plants never exceed 6 inches in height, and form beautiful carpet-like bushes, which are densely covered with from 250 to 300 exceedingly pretty flowers (see illustration). 15 cts. per pkt.; 2 pkts. for 25 cts.

GODETIA LADY SATIN ROSE.

A most beautiful annual, unequaled for brilliancy and richness of color. It was awarded a first-class certificate by the Royal Horticultural Society of England. The flowers produced in great abundance, are a deep rose-pink, the surface shining like satin. 10 cts. per pkt.; 3 pkts. for 25 cts.

NEW SWEET ALYSSUM LITTLE GEM.

A new and exceedingly pretty variety of Sweet Alyssum, that gave great satisfaction last year. It is a distinct variety, the plants are of compact spreading growth, attaining a height of only 3 or 4 inches, but a single plant will cover a space of 12 to 14 inches in diameter. They bloom most profusely in fragrant spikes of pure white flowers. 10 cts. per pkt.; 3 pkts. for 25 cts.

HUMULUS JAPONICA.

This New Annual Hop, brought from Japan, is a very ornamental and extremely rapid-growing vine. The foliage is a bright green, fancy in appearance. The most valuable characteristic of this new plant is that the seed can be sown in open ground, the plants attaining a very large size in a short time. 25 cts. per pkt.; 3 pkts. for 65 cts.

BALSAM DOUBLE WHITE PERFECTION.

This is without exception the best Double White Balsam grown; the flowers are snow-white, perfectly round, symmetrical and thoroughly double. The plants flower profusely and are of fine habit. 90 cts. per pkt.; 3 pkts. for 50 cts.

NICOTINA AFFINIS.

This very beautiful and free-blooming plant grows about 2½ feet high. The large white tulip-shaped flowers, which are in their perfection mornings and evenings, are exquisitely perfumed. The seed should be started in boxes or under glass, and plants transplanted when the proper size. 10 cts. per pkt.; 3 pkts. for 25 cts.
Under this head we class the true Annuals, that is, flowers that bloom the first year then die. Also such Biennials and Perennials as flower the first season, then live on, like the Pansy, Dianthus, Antirrhinum, etc. In this list will be found the old and well-tried favorites that brighten our flower gardens and homes from year to year; some with their simple beauty, others with their gorgeous magnificence. We have taken pains to give the seeds of the best quality, and have made prices as low as possible. All can then, with little trouble, have beds and borders of beautiful flowers, that in many cases will surpass in beauty expensive collections of bedding plants.

Under their respective heads will be found Climbing Vines, Everlastings, Ornamental Grasses, Perennials and Greenhouse Seeds; also, for convenience in ordering, we have enclosed a separate order sheet for this department.

PREMIUMS.—For each one dollar sent us for Flower Seeds, in packets, the purchaser can select seeds in packets to value of 20 cents extra.
